El libro consta de seis capítulos: 1. Calidad a través de la historia; 2. Normatividad nacional e internacional para los sistemas de gestión de la calidad; 3. Sistemas de gestión integral de la calidad SGIC; 4. Auditorías de los sistemas de gestión; 5. Reconocimiento empresarial; 6. La mejora continua empresarial.

Baking Business Sustainability Through Life Cycle Management João Miguel Ferreira da Rocha, Aleksandra Figurek, Anatoliy G. Goncharuk, Alexandrina Sirbu, 2023-04-27. This timely and comprehensive text focuses on important recent advances in applied sustainability in the baking industry, connecting all the current methods and strategies into a single book. Those involved in bread production will find the latest developments at the theoretical and practical levels, including information and communication requirements, reporting and regulatory aspects, economic and environmentally sustainable business models, supply chain management, life cycle assessment, product and organizational environmental footprints, and more. For small bakery business owners to industry leaders and policymakers, governmental authorities, regulatory authorities, and standardization bodies, this book offers a compilation of technical information about sustainability in the market for the bakery sector. *Baking Business Sustainability Through Life Cycle Management* begins by presenting basic information on the life cycle assessment and product environmental footprint of the bread industry, proposing an analysis of sustainability assessment using environmental and social footprints and providing recommendations for integral optimization of economic and environmental performance. A second section focuses on sustainability in the baking industry, providing a regional focus from Europe to the Americas to Africa and beyond. The third section takes a deep look at economic feasibility and efficiency in the bread industry, including the economic viability of different scenarios for bread-based value chains and forming efficient business models for bakeries. A final section zeroes in on the most up-to-date innovations in the current bakery industry, including the impact of bakery innovation on business resilience, growth, commercial systems, and new business models in regional food systems for farmers and companies based on a multi-actor approach. Innovations within the bakery industry are at an all-time high, with new sustainability and economic models being introduced along with associated market risks. This timely and ambitious text aims to cover all the most recent advances and methods for successful incorporation into bakery businesses.

Improving the HACCP System Through the Application of ISO 22000

Matthew J. Surdick, 2012 The purpose of this study was to develop the framework and systems to advance the current HACCP food safety program to reflect the standard of ISO 22000 The goals of the study were to conduct an analysis of identified food safety systems to understand the best food safety practices conduct a GAP analysis of the food safety system at XYZ and finally to conduct a need assessment focusing on organizational analysis task analysis and individual analysis The methods used in the study include a review of literature of established food safety systems to determine necessary improvements and utilize an ISO 22000 audit checklist to determine the gap between the current food safety system at company XYZ and the ISO standard The last method used in the study was a semi structured interview guide to conduct an interview with different levels of management at company XYZ Information collected from the audit checklist and semi structured interview suggest that the current system established at company XYZ would benefit from the implementation of ISO 22000 principles The current system at Company XYZ fails to properly train employees and managers on HACCP principles and pre requisite programs indicated by the results in the audit checklist and semi structured interview Implementing a training program that teaches employees and managers the basics of the program and the reason for the program in addition to improving management involvement will positively affect Company XYZ s food safety system
