Security Dynamics in The Gulf and The Arabian Peninsula Howard M. Hensel, 2022-09-30 This book focuses on security dynamics in the contemporary Gulf and Arabian Peninsula. It highlights the development of the Gulf and the Arabian Peninsula, the contemporary challenges and opportunities confronting the principal powers that are active in this important sub region, and analyzes and evaluates their policy responses. The various perspectives of the chapters all suggest that the stability and security of the Gulf sub region is now and will continue in the future to be of vital importance to the global community. The chapters that compose the volume are organized into three thematic sections: Part I Security Challenges and Power Configurations in the Gulf and the Arabian Peninsula; The Historical Context, comprising three chapters; Part II, consisting of seven chapters, is entitled Contemporary Security Challenges and Opportunities in the Gulf and the Arabian Peninsula; Part III Contemporary National Interests, Objectives and Strategies of the Major Powers in the Gulf and the Arabian Peninsula, comprising five chapters. Finally, the volume ends with a concluding chapter. Unfortunately, the contemporary unstable heterogeneous Gulf sub region is fraught with extremely serious and often urgent challenges that threaten the sub region's security. This volume helps to illuminate the nature of the sub regional environment and the contemporary challenges and opportunities that confront the various powers that are active in the Gulf. It also contributes to a greater understanding of the interests, contemporary objectives and strategies of those powers as they formulate and implement policies in response to the challenges and opportunities that they confront. This book will be of much interest to students of security studies, Middle Eastern politics and International Relations. Iraq in the Twenty-First Century Tareq Y. Ismael, Jacqueline S. Ismael, 2015-02-20 Much has been written about the events surrounding the 2003 Anglo American invasion of Iraq and its aftermath, especially about the intentions, principles, plans and course of action of US policy, but much less attention has been given to the consequences of US policy on Iraqi political and social development. This book provides an in depth analysis of the impact of US policy on the social and political development of Iraq in the twenty first century. It shows how not just the institutions of the state were destroyed in 2003, leaving the way open for sectarianism, but also the country's cultural integrity, political coherence and national oriented economy. It outlines how Iraq has been economically impoverished, assessing the appalling situation which ordinary people, including women and children, have endured, not just as a result of the 2003 war, but also as a consequence of the 1991 war and the sanctions imposed in the following years. The book argues that the social, political and cultural ruin that accompanied the Iraq war was an absolute catastrophe, that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices, and that those responsible continue to evade being made accountable. **The U.S.-EU Free-Trade Agreement** United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Commerce, Manufacturing, and Trade, 2015 Block Granting Medicaid Edward Alan Miller, 2013-11-12 Medicaid is the largest grant in aid program in the United States. Reform

in this area therefore provides a unique opportunity to study the intersection between federal and state policy making in an area recently characterized by substantial uncertainty deriving from the lingering effects of the Great Recession ongoing debate over the federal budget and implementation of the Patient Protection and Affordable Care Act Invariably states reform the way health care is delivered regulated and financed within broader parameters established by federal statutes and regulations It is critical therefore that effective strategies be put into place if both current and future health and long term care reform efforts are to have their greatest chances at success Rhode Island is the first state to receive permission to operate its entire Medicaid program under a global cap As a consequence it has entered the national consciousness as a key data point potentially supporting the block grant approach to Medicaid reform In this book Edward Alan Miller identifies factors that either facilitated or impeded the design and implementation of Rhode Island's Global Consumer Choice Compact Medicaid Waiver in order to draw broader lessons for the Medicaid block grant debate and health and long term care reform more generally Evidence gathered from archival sources and in depth interviews with key stakeholders exposes the role that provider capacity has played in the implementation process including adult day care assisted living home maker and other home and community based services The impact of the Global Waiver on the nursing home sector is examined as well in addition to new authority to obtain federal matching dollars for previously state only funded programs By providing a sophisticated understanding of factors enhancing or impeding state health reform this book will contribute to improvements in the development and administration of policy development at both the state and federal levels
