Lungile Health Care:

Healthcare in Private and Public from the Early Modern Period to 2000 Paul Weindling,2014-12-17 A key volume on a central aspect of the history of medicine and its social relations The History of Healthcare in Public and Private examines how the modernisation of healthcare resulted in a wide variety of changing social arrangements in both public and private spheres This book considers a comprehensive range of topics ranging from children s health mental disorders and the influence of pharmaceutical companies to the systems of twentieth century healthcare in Britain Eastern Europe and South Africa Covering a broad chronological thematic and global scope chapters discuss key themes such as how changing economies have influenced configurations of healthcare how access has varied according to lifecycle ethnicity and wealth and how definitions of public and private have shifted over time Containing illustrations and a general introduction that outlines the key themes discussed in the volume The History of Healthcare in Public and Private is essential reading for any student interested in the history of medicine Patrolling Epistemic Borders in a World of Borderless Pandemics Artwell Nhemachena,Rewai Makamani,2021-11-19 The global epistemological gendarmerie do not only police epistemologies but they also infect the world with infectious epidemics of laughter targeted at those people whose epistemologies are offhandedly condemned as sterile and useless in controlling and containing pandemics Patrolling epistemic borders in ways that demobilise indigenous epistemologies the global epistemological policemen have ironically managed to prevent transgressive epistemologies from crossing borders but they have fatally failed to prevent the transgressive COVID 19 from recurrently crossing borders be they bodily national or continental Brandishing fetishised degree and diploma certificates African comprador academics who are more interested in fetishised ranks and titles than in creativity and innovation have also fatally failed to help African communities by producing vaccines for Africans by Africans Arguing that Eurocentric epistemologies have become sterile fetishes the book contends that such epistemologies have disabled African scholars from actively producing vaccines on a continent where there are paradoxically more epidemics of mimetic laughter than there are efforts at creativity and innovation The book is useful for scholars in sociology anthropology development studies languages and communication natural sciences historical studies and social work **Leeds African Studies Bulletin** ,1989 **The South African Women's Health Book** University of the Witwatersrand.
