Doctoring the South Steven M. Stowe, 2011-01-20 Offering a new perspective on medical progress in the nineteenth century Steven M Stowe provides an in depth study of the midcentury culture of everyday medicine in the South Reading deeply in the personal letters daybooks diaries bedside notes and published writings of doctors Stowe illuminates an entire world of sickness and remedy suffering and hope and the deep ties between medicine and regional culture In a distinct American region where climate race and slavery and assumptions about southernness profoundly shaped illness and healing in the lives of ordinary people Stowe argues that southern doctors inhabited a world of skills medicines and ideas about sickness that allowed them to play moral as well as practical roles in their communities Looking closely at medical education bedside encounters and medicine s larger social aims he describes a country orthodoxy of local social medical practice that highly valued the art of medicine While not modern in the sense of laboratory science a century later this country orthodoxy was in its own way modern Stowe argues providing a style of caregiving deeply rooted in individual experience moral values and a consciousness of place and time *Fractured Freedoms* David T. Ballantyne, 2025-02-04 David T Ballantyne s *Fractured Freedoms* is a riveting history of central Louisiana from the 1860s to the 1890s focusing on majority Black Rapides Parish during Reconstruction Using the region as a case study Ballantyne reveals what is in part a rural Reconstruction success story emphasizing the resilience of Black politics and the persistence of significant divisions among white residents that allowed the Republican Party to gain and maintain power there It was only with the collapse of state level Republican power in 1877 that Democratic forces in the parish were able to dismantle local Republican political control and gradually constrict Black freedoms Marching Masters Colin Edward Woodward, 2014-03-05 The Confederate army went to war to defend a nation of slaveholding states and although men rushed to recruiting stations for many reasons they understood that the fundamental political issue at stake in the conflict was the future of slavery Most Confederate soldiers were not slaveholders themselves but they were products of the largest and most prosperous slaveholding civilization the world had ever seen and they sought to maintain clear divisions between black and white master and servant free and slave In *Marching Masters* Colin Woodward explores not only the importance of slavery in the minds of Confederate soldiers but also its effects on military policy and decision making Beyond showing how essential the defense of slavery was in motivating Confederate troops to fight Woodward examines the Rebels persistent belief in the need to defend slavery and deploy it militarily as the war raged on Slavery proved essential to the Confederate war machine and Rebels strove to protect it just as they did Southern cities towns and railroads Slaves served by the tens of thousands in the Southern armies never as soldiers but as menial laborers who cooked meals washed horses and dug ditches By following Rebel troops continued adherence to notions of white supremacy into the Reconstruction and Jim Crow eras the book carries the story beyond the Confederacy s surrender Drawing upon hundreds of soldiers letters diaries and memoirs *Marching Masters* combines the latest social and

military history in its compelling examination of the last bloody years of slavery in the United States     *A Fierce and Fractious Frontier* Samuel C. Hyde, Jr.,2004-09-01 Tales of Cajuns Creoles and New Orleans decadence dominate both popular and professional impressions of Louisiana and have undoubtedly distracted attention from the region that arguably experienced the most dramatic pattern of development in Louisiana if not the entire Gulf South Louisiana s Florida Parishes located in the southeastern part of the state have endured a tumultuous evolution including domination by every major power that invaded North America exclusion from the Louisiana Purchase insurrection and the establishment of the original Lone Star Republic and some of the highest rates of rural homicide recorded in American history The area was long neglected by scholars until some of its foremost experts came together to explore and recognize its singular identity This volume is a result of that collaboration and consists of ten essays on the history and culture of this unique territory In tracing the progress of Louisiana s Florida Parishes the book begins with an eye opening ethnographic history of the territory during its days as a French colony the brief era of British rule and slavery as it was practiced under the Spanish regime A revealing look at the region during the War of 1812 provides a dynamic account of the only major naval battle in the South during that conflict Subsequent essays give lucid and insightful examination to the area s guerrilla tactics during the Civil War credit crisis of the postbellum era and ecological transformation through pine forest harvesting The final third of the book considers the demographic changes wrought by black labor employed in the lumber mills of the early twentieth century the challenges confronting a rural depression era black community and recent environmental changes in the parishes that impact ongoing economic development *A Fierce and Fractious Frontier* employs a comprehensive approach supported by provocative groundbreaking research to explain the difficulties of the past and suggest considerations for the future of Louisiana s Florida Parishes It will stand as a model for the emerging field of southern subregional studies     *Against the Spirit of System* John Harley Warner,2003-11-12 In this wide ranging exploration of American medical culture John Harley Warner offers the first in depth study of a powerful intellectual and social influence the radical empiricism of the Paris Clinical School After the French Revolution Paris emerged as the most vibrant center of Western medicine bringing fundamental changes in understanding disease and attitudes toward the human body as an object of scientific knowledge Between the 1810s and the 1860s hundreds of Americans studied in Parisian hospitals and dissection rooms and then applied their new knowledge to advance their careers at home and reform American medicine By reconstructing their experiences and interpretations by comparing American with English depictions of French medicine and by showing how American memories of Paris shaped the later reception of German ideals of scientific medicine Warner reveals that the French impulse was a key ingredient in creating the modern medicine American doctors and patients live with today Impressed by the opportunity to learn through direct hands on physical examination and dissection many American students in Paris began to decry the elaborate theoretical schemes they held responsible for the degraded state of American medicine These reformers launched an

empiricist crusade against the spirit of system which promised social economic and intellectual uplift for their profession Using private diaries family letters and student notebooks and exploring regionalism gender and class Warner draws readers into the world of medical Americans while investigating tensions between the physician s identity as scientist and as healer

North American Forest History Forest History Society,1977      *The Trans-Appalachian Frontier* Malcolm J.

Rohrbough,1978 Tells the dramatic story of the settling of this frontier the kind of people who became pioneers a nd the sort of societies and institutions that emerged to deal with the wilderness      **Reconstructing the Levees** Cynthia R. Poe,2006

**Civil Wars** George C. Rable,1989-04 A full length study of white women during the Civil War      *Cavalryman of the Lost Cause* Jeffry D. Wert,2008-09-23 From one of our best historians Stephen W Sears author of Chancellorsville comes the first full scale biography in more than 20 years of J E B Stuart the most colorful and controversial Confederate cavalryman of b w photographs      *The Road to Disunion: Secessionists at bay, 1776-1854* William W. Freehling,1990 Far from a monolithic block of diehard slave states the South in the eight decades before the Civil War was in William Freehling s words a world so lushly various as to be a storyteller s dream It was a world where Deep South cotton planters clashed with South Carolina rice growers where the egalitarian spirit sweeping the North seeped down through border states already uncertain about slavery where even sections of the same state for instance coastal and mountain Virginia divided bitterly on key issues It was the world of Jefferson Davis John C Calhoun Andrew Jackson and Thomas Jefferson and also of Gullah Jack Nat Turner and Frederick Douglass Now in the first volume of his long awaited monumental study of the South s road to disunion historian William Freehling offers a sweeping political and social history of the antebellum South from 1776 to 1854 All the dramatic events leading to secession are here the Missouri Compromise the Nullification Controversy the Gag Rule the Pearl Harbor of the slavery controversy the Annexation of Texas the Compromise of 1850 and the Kansas Nebraska Act Freehling vividly recounts each crisis illuminating complex issues and sketching colorful portraits of major figures Along the way he reveals the surprising extent to which slavery influenced national politics before 1850 and he provides important reinterpretations of American republicanism Jeffersonian states rights Jacksonian democracy and the causes of the American Civil War But for all Freehling s brilliant insight into American antebellum politics *Secessionists at Bay* is at bottom the saga of the rich social tapestry of the pre war South He takes us to old Charleston Natchez and Nashville to the big house of a typical plantation and we feel anew the tensions between the slaveowner and his family the poor whites and the planters the established South and the newer South and especially between the slave and his master Cuffee and Massa Freehling brings the Old South back to life in all its color cruelty and diversity It is a memorable portrait certain to be a key analysis of this crucial era in American history      Southern Exposure ,1981      **American Press** ,1952      *Lawrence Taliaferro Papers, 1813-1868* Lawrence Taliaferro,1965      **Taliaferro Family** , Folder includes research notes and other material such as journal articles and copies of and extracts from Jefferson related correspondence      *Family Papers* Samuel Lounder,Lounder family,188?
