

- 5 Squeeze the length-guide tabs together, and then slide the length guide to the correct position for the paper size being loaded.

- 6 Flex the sheets back and forth to loosen them. Do not fold or crease the paper. Straighten the edges on a level surface.

- 7 Load the paper stack with the recommended print side faceup. Load the paper in either the long-edge or short-edge orientation as described at the beginning of this section.

Notes:

- Load sizes larger than A4 in the short-edge orientation.
- Make sure the paper is below the maximum fill line located on the edge of the paper tray. Overloading the tray can cause paper jams and possible printer damage.

Long-edge orientation

Short-edge orientation

- 8 Adjust both the width and length guides to lightly touch the edge of the paper stack. Make sure the paper fits loosely in the tray, lies flat, and is not bent or wrinkled.
- 9 Lock the width guide.

- 10 Insert the tray.

- 11 From the printer control panel, set the Paper Size and Paper Type for the tray based on the paper you loaded.

Loading the multipurpose feeder

The multipurpose feeder can hold several sizes and types of print media, such as transparencies, labels, card stock, and envelopes. It can be used for single-page or manual printing, or as an additional tray.

The multipurpose feeder can hold approximately:

- 50 sheets of 75-g/m² (20-lb) paper
- 10 envelopes
- 20 transparencies

Note: Do not add or remove paper or specialty media when the printer is printing from the multipurpose feeder or when the printer control panel indicator light is blinking. Doing so may cause a jam.

- 1 Pull down the multipurpose feeder door.
