Middletown, America Gail Sheehy, 2003-09-02 The single event that we know as 9 11 is over but the shock waves continue to radiate outward generated by orange alerts terrorism lockdowns and the shrinking of personal liberties we once took for granted The stories in this book of real people faced with extraordinary trauma and gradually transcending it are the best antidote to our fears Middletown America is a book of hope All Americans were hit with some degree of trauma on September 11 2001 but no place was hit harder than Middletown New Jersey Gail Sheehy spent the better part of two years walking the journey from grief toward renewal with fifty members of the community that lost more people in the World Trade Center than any other outside New York City Her subjects are the women men and children who remained after the devastation and who are putting their lives back together Sheehy tells the story of four widowed moms from New Jersey who started out scarcely knowing the difference between the House and the Senate yet turned their sorrow and anger into action and became formidable witnesses to the failures of the country's leadership to connect the dots before September 11 Sheehy follows the four moms as they fight White House attempts to thwart the independent commission investigating 9 11 and expose efforts at a cover up What would become of the young wives carrying children their husbands would never see wives who had watched their dreams literally go up in smoke in that amphitheater of death across the river Amazingly each finds her own door to the light Here too is the story of the widow and widower who met in the waiting room of a mental health agency and brought each other back from the brink of despair across a bridge of love Sheehy also reveals how bereft mothers who will never have another son or daughter found reasons to recommit to life And she follows in the footsteps of the robbed children documenting the incredible resilience of four year olds the anger of teenagers the courage of sisters and brothers Sheehy follows survivors who escaped the burning towers only to find themselves trapped inside a tower of inner torment from which it took love family and faith to free themselves She is taken into the confidence of the night crew at Ground Zero police officers who worked in that pit for eight months straight and then faced the returning home phenomenon She recounts the confessions of religious leaders who struggled to explain the inexplicable to their flocks Mental health professionals confide in her as do corporate chiefs educators friends and neighbors townspeople and volunteers who rose to the occasion and committed themselves to healing their wounded community As a journalist who conducted more than nine hundred interviews Gail Sheehy is an impeccable researcher As a writer with a novelistic gift she weaves the individual stories into a compelling narrative Middletown America illuminates every stage of a tumultuous passage from shock passivity and panic attacks to rising anger and deep grieving and on to the secret romances and startling relapses the realignment of faith the return of a capacity to love and be loved and finally the commitment to constructing new lives

American Unexceptionalism Kathy Knapp, 2014-05-01 American Unexceptionalism examines a constellation of post 9 11 novels that revolve around white middle class male suburbanites thus following a tradition established by writers such as John Updike and John Cheever Focusing closely on recent works by Richard Ford Chang Rae Lee Jonathan Franzen Philip Roth Anne Tyler Gish Jen A M Homes and others Kathy Knapp demonstrates that these authors revisit this well trod turf and revive the familiar everyman character in order to reconsider and reshape American middle class experience in the wake of the 9 11 attacks and their ongoing aftermath The novels in question all take place in the sprawling terrain that stretches out beyond the Twin Towers the postwar suburbs that since the end of World War II have served like the Twin Towers themselves as a powerful advertisement of dominance to people around the globe by projecting an image of prosperity and family values These suburban tales and their everyman protagonists grapple however indirectly with the implications of the apparent decline of the economic geopolitical and moral authority of the United States In the context of perceived decay and diminishing influence these novels actively counteract the narrative of American exceptionalism frequently peddled in the wake of 9 11 If suburban fiction has historically been faulted for its limited vision this newest iteration has developed a depth of field that self consciously folds the personal into the political encompasses the have nots along with the haves and takes in the past when it imagines the future all in order to forge a community of readers who are now accountable to the larger world American Unexceptionalism traces the trajectory by which recent suburban fiction overturns the values of individualism private property ownership and competition that originally provided its foundation In doing so the novels examined here offer readers new and flexible ways to imagine being and belonging in a setting no longer characterized by stasis but by flux
