The Routledge Companion to Reinventing Management Education Chris Steyaert, Timon Beyes, Martin Parker, 2016-06-17 The position and role of the business school and its educational programmes have become increasingly prominent yet also questioned and contested What management education entails and how it is enacted has become a matter of profound concern in the field of higher education and more generally for the development of the organized world Drawing upon the humanities and social sciences The Routledge Companion to Reinventing Management Education imagines a different and better education offered to students of management entrepreneurship and organization studies It is an intervention into the debates on what is taught and how learning takes place demonstrating both the potential and the limits of what the humanities and social sciences can do for management education Divided into six sections the book traces the history and theory of management education reimagining central educational principles and outlining an emerging practice based approach With an international cast of authors The Routledge Companion to Reinventing Management Education has been written for contemporary and future educators and for students and scholars who seek to make a difference through their practice

Profit, Accumulation, and Crisis in Capitalism Minqi Li, 2020-01-31 Karl Marx hypothesized that there is a long term tendency for the profit rate to fall in capitalist economies Immanuel Wallerstein hypothesized that capitalist development tends to drive up labor cost material cost and taxation cost This book evaluates Marx's and Wallerstein's hypotheses by studying the long term movement of the profit rate and contributing factors in major capitalist economies During the twentieth century leading capitalist economies largely succeeded in stabilizing the profit rate However the current decline of the profit rate in China may precipitate the global capitalist economy into a new major crisis As economic growth slows down in all major capitalist economies Marx's original hypothesis may be verified by the global economic events in the twenty first century
