Baliga 1996 *COMPUTER IN ECONOMICS SUBJECT* Dr. Bhaveshkumar R Parmar, 2020-12-29 1 0 INTRODUCTION

Economics is the social science that analyzes the production distribution and consumption of goods and services Political economy was the earlier name for the subject but economists in the late 19th century suggested economics as a shorter term for economic science that also avoided a narrow political interest connotation and as similar in form to mathematics ethics and so forth Everyone is a part of economy and everyone uses the rules of economy too From the time we are born we become consumers of various products and services say medical services baby foods and so on We grow and diversify to attain various different roles as producers traders mediators and agents Today s world is that of economic imperialism where economical factors most importantly money dictates all the elements of the society not to forget close family relations With recession wreaking havoc economics is something which even ignorant households are learning Economics is a science which deals with production distribution and consumption of goods and services Therefore we can conclude that whatever involves transfer of money includes economics There are two schools of economics namely microeconomics and macroeconomics The combined results of these two determine the actual effect of economics on people To list all the important functions of economics would be literary impossible as newer issues keep creeping up In the following lines we have described some broad and basic functions of economics

The Capacity Crisis in Disaster Risk

Management Asmita Tiwari, 2015-03-05 How can a place be built and managed so that it is safe for people to live Ironically many governments and citizens keep on asking the same question after every new disaster Why even with high levels of investment in increasing government s capacity to manage disasters do the impacts of disasters continue to increase What

can the governments do differently What is the role of local communities Where should aid agencies invest This book looks into these critical questions and highlights how current capacity development efforts might be resulting in the opposite capacity crisis or capability trap The book provides a new approach for the understanding and the developing of effective local capacity to reduce and manage future disaster impacts
