Following the procedure in Figure 1, the 2000 survey instrument is subject to the following two conditions: (1) the survey must only contain trained participants, and (2) the data must satisfy any restrictions that your service imposed.

\*For radio operation with 3 AAA alkaline batteries or NiMH rechargeable batteries, the tail clip should be removed to ease installation or removal of the batteries.

**The Journal of the American Academy of Child and Adolescent Psychiatry**

1. With the back of the radio facing you, remove the bolt clip (see diagram below) for easy access. Then remove the Battery Cover by pressing down on the top center and sliding it down from the radio.
2. Insert 3 AAA batteries, observing the polarity as shown on the Battery Compartment. Installing the batteries incorrectly will prevent the unit from operating or may damage the unit.
3. Return the Battery Cover by sliding it up on the radio. Replace the bolt clip, making sure it locks into place.

Your radio is equipped for using rechargeable NiMH batteries which can be recharged by inserting the AC adapter into the radio charge port. Initial charge time is 18 hours. Charge time is about 12 hours thereafter. For maximum battery life, we recommend charging the batteries when the low battery icon comes on. Remove the radios from the charger when the charge time expires.

- 1. Only use our NiMH batteries.
- 2. Do not attempt to charge alkaline batteries or any batteries or battery packs other than the one indicated in the manual. This may cause leakage and damage to the radio.
- 3. For long term storage of the radio, turn the radio OFF and remove the batteries from the radio.

When the battery voltage gets low, the **LOW BATTERY ICON** will blink along with the message "Hi Lo" on the display. When using the rechargeable battery pack, the low battery icon will indicate that you are very close to the batteries being exhausted. When using AAA Alkaline batteries, the low battery icon means you have about 50% of battery life remaining.

Your Millard radio is designed to comply with the following national and international standards and guidelines regarding exposure of human beings to radio frequency electromagnetic energy:

Use of any accessories not supplied or approved by Midland may exceed FCC/Health Canada RF exposure guidelines.
