Japanese Homes and Their Surroundings (Classic Reprint) Edward Sylvester Morse, 2015-07-01 Excerpt from Japanese Homes and Their Surroundings In an exceedingly interesting article on the early study of the Dutch in Japan by Professor K Mitsukuri the author has occasion to refer to the uncle of one of the three famous Japanese scholars who translated into Japanese a Dutch book on anatomy He says this uncle Miyada was almost eccentric in his disposition He held it to be a solemn duty to learn any art or accomplishment that might be going out of the world and then describe it so fully that it might be preserved to posterity The nephew was faithful to his uncle s instructions and though following medicine for his profession he took it upon himself to learn hitoyogiri a certain kind of music which was well nigh forgotten and even went so far as to study a kind of dramatic acting Though not animated by Miyada s spirit when I set about the task of collecting the material embodied in this work I feel now that the labor has not been altogether in vain as it may result in preserving many details of the Japanese house some of them trivial perhaps which in a few decades of years may be difficult if not impossible to obtain About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any
