Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach

Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners ELs in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition. Effective instruction requires a research-based approach that considers the diverse linguistic, cultural, and cognitive backgrounds of these learners. Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge, essential for helping ELs develop the skills needed to comprehend complex materials. Fostering metacognitive awareness through strategies like summarizing, questioning, and making connections can empower students to become active and strategic readers. This approach recognizes the need for a supportive, inclusive classroom environment that encourages language development while promoting academic achievement in content areas. Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school. Teaching Reading Comprehension to English Learners in Secondary School: A Research-Based Approach explores various aspects of teaching reading comprehension to English Second Language (ESL) learners in secondary schools. It examines current challenges and evidence-based strategies in reading comprehension. This book covers topics such as language learning, reading strategies, and teacher training and is a useful resource for academicians, researchers, and scientists. Twenty-Twenty Hindsight Mosiuoa Sekese, 2013-05-16 Twenty twenty hindsight means perfect understanding of events only after they have happened. In his book, Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events. Sekese suffered discrimination and prejudice under the old apartheid government as well as the new democratic regime. His story is highly personal but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with. I had a quick read and I find the
