Manuel Danalyse Du Web En Sciences Humaines Et Sociales:

Manuel d'analyse du web - 2e éd. Christine Barats, 2016-02-03 La place qu'occupe le web en tant que dispositif sociotechnique dans les sociétés du XXI^e siècle n'est plus de montrer et susciter une demande nouvelle de savoirs et de savoir-faire. Ce manuel premier sur cet objet propose un état actuel des savoirs et des réflexions tant méthodologiques que théoriques sur l'observation et l'analyse du web en sciences humaines et sociales. Les auteurs mettent l'accent sur ce que change le web dans le choix et l'appropriation de méthodes issues des SHS. Quelle place accorder à la dimension technique ? Comment constituer et collecter des observables ? Comment repenser les notions de documents de données ? Le parti pris de l'ouvrage est didactique : chaque auteur explicite ses pratiques de recherche et les cadres nécessaires à la connaissance scientifique. Il s'adresse aux étudiants qui commencent une recherche afin de les accompagner dans la construction de leur terrain, tout autant qu'aux chercheurs confirmés ou aux enseignants qui souhaitent nourrir leur réflexion sur le sujet. Christine Barats, maître de conférences à l'université Paris Descartes et chercheuse au Citec de l'université Paris Est, a dirigé cet ouvrage collectif. Ouvrage publié avec le soutien du laboratoire Citec.

Digital Presences of Organizations Nathalie Pinède, Luc Massou, Patrick Mpondo-Dicka, 2024-08-13 Organizations communicate in complex and various ways and the context is mainly characterized by the pervasiveness of the digital ecosystem including the Web social networks and the Internet of data. However, its information delivery cannot overlook the requirements of multicultural communications at a variety of levels. Digital Presences of Organizations highlights the communication roadblocks faced by organizations as they emerge, arising not only from issues encountered on their own websites but also as they construct online narratives. This multifaceted and multi-strategy digital presence of organizations is addressed via three main thematic axes. The first focuses on differentiated strategies: content services interaction that can be observed depending on the types of organizations and their users. The second examines the cultural dimension of websites ranging from the local to the global. Finally, the third focuses on the role of narration in organizations.

online communication strategies **Linking with Nature in the Digital Age** Émilie Kohlmann, 2024-05-29 The use of digital technology in our societies is growing to meet the ever increasing challenges of data collection raising awareness education and understanding nature Artificial intelligence for example appears to be the answer to collecting massive amounts of data on biodiversity at a global scale and facilitating citizen participation in such data collection Linking with Nature in the Digital Age explores the reconfiguration of our relationship with nature within this digital framework This book examines this mediated linking from three angles Firstly it shows how digital technology can foster the development of links to nature Then it describes in greater detail the materiality of these links and how they have evolved with the developments in information technology Finally it questions the belief in the digital as a facilitator and opens up new perspectives on our relationship with nature and the living world Film Criticism in the Digital Age Mattias Frey, Cecilia Sayad, 2015-04-20 Over the past decade as digital media has expanded and print outlets have declined pundits have bemoaned a crisis of criticism and mourned the death of the critic Now that well paying jobs in film criticism have largely evaporated while blogs message boards and social media have given new meaning to the saying that everyone s a critic urgent questions have emerged about the status and purpose of film criticism in the twenty first century In Film Criticism in the Digital Age ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form Drawing from a wide variety of case studies and methodological perspectives the book s contributors find many signs of the film critic s declining clout but they also locate surprising examples of how critics whether moonlighting bloggers or salaried writers have been able to intervene in current popular discourse about arts and culture In addition to collecting a plethora of scholarly perspectives Film Criticism in the Digital Age includes statements from key bloggers and print critics like Armond White and Nick James Neither an uncritical celebration of digital culture nor a jeremiad against it this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation promotion and explanation of artistic works **Le religieux sur internet** Sophie Nizard, Fabienne Duteil-Ogata, Isabelle Jonveaux, Liliane Kuczynski, 2015-11-15 La multiplication des sites et blogs religieux toutes religions confondues contribue red finir les conceptions traditionnelles du temps et de l espace les rapports entre centre et p riph ries et les relations de pouvoir d autorit et de genre Les pratiques les identit s la notion de communaut se recomposent sans cesse Ce livre le premier en fran ais sur ce sujet se propose d valuer et d analyser ces transformations *Expressions de l'identité dans le monde celtique* Gaël Hily, 2014 Cet ouvrage est issu d une collaboration entre les membres associ s du CRBC de la composante de Rennes qui a t initi e par Ga l Hily docteur en tudes celtiques et dipl m de l Universit de Rennes 2 depuis 2001 Il t moigne autant du dynamisme et de la qualit des travaux des doctorants post doctorants et associ s de l unit de recherche que de leur volont de diffuser leurs conclusions aupr s d un public large La diversit des th mes abord s ici contribuera assur ment toffer et alimenter le d bat et la recherche universitaire en tudes bretonnes irlandaises et plus largement celtiques P 4
