**Daughters and Mothers** Julie Firman,Dorothy Firman,2003-08-21 The mother daughter relationship is one of the most intense relationships a woman will ever experience it is strong and primary This first and

essential relationship has a powerful though often subtle effect on an adult woman's interactions with her mate, children, friends, and herself. Often this crucial bond, which was initially based in love, turns into one of anger, guilt, and resentment, the effects of which can permeate a woman's life as a burden from the past that is haunting, limiting, and debilitating. In this profound book, coauthors Julie Firman and her daughter Dorothy Firman, both psychotherapists who specialize in mother-daughter workshops, help readers sift through old behavior patterns, feelings, and thoughts to transform their relationships and ultimately themselves. For every woman who experiences the pain in her relationship with her mother or daughter, there is the promise of finding the joy. The Firmans will help readers grow beyond their limitations into more integrated, freer, and more fulfilled women using stories from their own lives, case studies of other women, and practical, revealing workbook exercises. *Daughters and Mothers* is an essential guide for women who want to heal their relationship and achieve greater acceptance, love, and harmony. It is a book for women of all ages and one that is never too late to read. **Handbook of**

**Narrative Psychotherapy for Children, Adults, and Families** Jan Olthof, 2018-05-08. The Handbook of Narrative Psychotherapy for Children, Adults, and Families combines philosophical, scientific, and theoretical insights in the field of narrative psychotherapy and links them to sources of inspiration such as poetry, film, literature, and art under the common denominator of narrative thinking. Sections on theoretical issues alternate with a large number of case histories drawn from different therapeutic contexts. The reader can browse at will through the many examples of therapeutic sessions in some cases including literal transcriptions in which narrativity in all its forms is the point of departure. What language does the body speak? What messages do seemingly random slips of the tongue convey? How can a painting help a client find words for his or her story? The discussion of the logic of abduction demonstrates the importance of metaphor, and special attention is given to the processes of creating a therapeutic context and defining a therapeutic framework. *The Difficult*
