The Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinothan Naidoo, 2018-08-24 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. *The Politics and Governance of Basic Education* explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress combining practical steps to achieve incremental gains to re-orient the system towards learning. *Transformation Audit 2011* Jan Hofmeyr, 2012-03-08 The 2011 Transformation Audit presents a collection of articles by South African thought leaders which asks how the country can set goals and achieve them in a hostile global climate that threatens developmental gains that have been painstakingly achieved. For nearly two decades South Africans have conducted exhaustive analyses of the country's challenges, embarked on bold scenario exercises and more recently produced forward looking strategies aimed at addressing these challenges. The most eminent of these in recent years were the Department of Economic Development's New Growth Path and the National Planning Commission's Draft National Development Plan. We know now what the problems are and by and large what needs to change to address them. Courage is required now to forge consensus to take decisions on strategies and to start implementing them. As in previous years, this publication with its slightly different format and appearance seeks to provide analysis and provoke debate on how this might be achieved. **Towards Digitally Transforming Accounting and Business Processes** Tankiso Moloi, Babu George, 2024-01-11 This conference volume discusses the findings of the iCAB 2023 conference that took place in Johannesburg, South Africa.
