La résurrection de Villiers de l'isle-Adam Léon Bloy, 1947      **The Resurrection of Villiers de L'Isle-Adam** Léon Bloy, 2022-03-08 The Resurrection of Villiers de l'Isle Adam by L on Bloy originally published in 1906 15 years after Villiers passing is as much an homage to Villiers de l'Isle Adam his literary corpus and genius as it is a plea to Thomas Edison to help subscribe monetarily to the statue sculpted in marble by Fr d ric Brou And now it s to you that I address myself Thomas Alva Edison Will you not do anything for him who did so much for you If you are known in France other than by your inventions the sorcerer of Menlo Park it is because of Villiers de l'Isle Adam Villiers had written The Future Eve whose main character or protagonist was Edison The central preoccupation the umbilicus of the singular poet that was the author of The Future Eve was and this is something that must be completely intolerable to imbeciles his really unprecedented need for a restitution of woman It has nothing to do with or a pleading with a dithyrambic paranymp with such and such fawning praise for the dangerous Sex It has to do with a renewal of earthly Paradise after the harsh winter of six thousand years It has to do with rediscovering that famous Garden of Voluptuousness symbol and accomplishment of Woman which all men search gropingly for throughout the centuries In any case she lived within him in what a frothy life and that is her whom I see pulling off the boards of his coffin      **La Résurrection de Villiers de l'Isle-Adam** Léon Bloy, 1906      La Résurrection de Villiers de l'Isle-Adam. **Villiers de l'Isle-Adam** ,1947 *Léon Bloy au tournant du siècle* Pierre Glaudes,1992 **Reconstructing Woman**

Dorothy Kelly,2010-11 Reconstructing Woman explores a scenario common to the works of four major French novelists of the nineteenth century Balzac Flaubert Zola and Villiers In the texts of each author a new Pygmalion as Balzac calls one of his characters turns away from a real woman he has loved or desired and prefers instead his artificial re creation of her All four authors also portray the possibility that this simulacrum which replaces the woman could become real The central chapters examine this plot and its meanings in multiple texts of each author with the exception of the chapter on Villiers in which only L Eve future is considered The premise is that this shared scenario stems from the discovery in the nineteenth century that humans are transformable Because scientific innovations play a major part in this discovery Dorothy Kelly reviews some of the contributing trends that attracted one or more of the authors mesmerism dissection transformism and evolution new understandings of human reproduction spontaneous generation puericulture the experimental method These ideas and practices provided the novelists with a scientific context in which controlling changing and creating human bodies became imaginable At the same time these authors explore the ways in which not only bodies but also identity can be made In close readings Kelly shows how these narratives reveal that linguistic and coded social structures shape human identity Furthermore through the representation of the power of language to do that shaping the authors envision that their own texts would perform that function The symbol of the reconstruction of woman thus embodies the fantasy and desire that their novels could create or transform both reality and their readers in quite literal ways Through literary analyses we can deduce from the texts just why this artificial creation is a woman Revelation and Convergence Mark Bosco,Brent Little,2017
