The Requirements of the Sufi Path Ibn Khaldūn, 2024-09-10 Sufism through the eyes of a legal scholar In The Requirements of the Sufi Path the renowned North African historian and jurist Ibn Khald n applies his analytical powers to Sufism which he deems a bona fide form of Islamic piety Ibn Khald n is widely known for his groundbreaking work as a sociologist and historian in particular for the Muqaddimah the introduction to his massive universal history In The Requirements of the Sufi Path he writes from the perspective of an Islamic jurist and legal scholar He characterizes Sufism and the stages along the Sufi path and takes up the question of the need for a guide along that path In doing so he relies on the works of influential Sufi scholars including al Qushayr al Ghaz l and Ibn al Kha b Even as Ibn Khald n warns of the extremes to which some Sufis go including practicing magic his work is essentially a legal opinion a fatwa asserting the inherent validity of the Sufi path The Requirements of the Sufi Path incorporates the wisdom of three of Sufism s greatest voices as well as Ibn Khald n s own insights acquired through his intellectual encounters with Sufism and his broad legal expertise All this he brings to bear on the debate over Sufi practices in a remarkable work of synthesis and analysis An English only edition

Esoteric Transfers and Constructions Mark Sedgwick, Francesco Piraino, 2021-02-27 Similarities between esoteric and mystical currents in different religious traditions have long interested scholars This book takes a new look at the relationship between such currents It advances a discussion that started with the search for religious essences archetypes and universals from William James to Eranos The universal categories that resulted from that search were later criticized as essentialist constructions and questioned by deconstructionists An alternative explanation was advanced by diffusionists that there were transfers between different traditions This book presents empirical case studies of such constructions and of transfers between Judaism Christianity and Islam in the premodern period and Judaism Christianity and Western esotericism in the modern period It shows that there were indeed transfers that can be clearly documented and that there were also indeed constructions often very imaginative It also shows that there were many cases that were neither transfers nor constructions but a mixture of the two
