even if we don't know French because it is probably the second largest and certainly the most translated into English And

even if we don't read we would have seen film and television versions think Count of Monte Cristo and even a musical

rendition Les Mis So this is a particularly interesting volume in the literature series since it covers French literature from the

earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to

drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands

with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often

substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and

many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The

chronology manages to cover about 1200 years of literary output And the introduction sets it all out neatly from one

historical and literary period to the next The bibliography broken down by period and author directs us to further reading in
