Motown Artist By Artist:

Motown Artist by Artist Pat Morgan, 2015-01-26 In 1959 Berry Gordy Jr a high school dropout former boxer and record store owner founded the Motown record label in Detroit The company name which played on the city's proud tradition of car manufacture was to become synonymous with great music as Gordy took the sound of black America to the world Starting with Barrett Strong's Money That's What I Want Motown racked up hit after hit becoming familiar to UK audiences under the name of Tamla Motown and launching the careers of megastars like Diana Ross and The Supremes The Four Tops Marvin Gaye Smokey Robinson The Temptations and the Jackson 5 The Motown Sound was instantly recognisable and unavoidably infectious As the decades wore on and musician styles changed Motown moved with the times launching a myriad of specialist labels and finding new artists to push the boundaries After a 2005 merger with Universal the hits kept coming Motown Artist by Artist relates the history of one of popular music's longest lasting success stories through the stories of the singers and musicians who made the hits From Ashford Simpson to Stevie Wonder every Motown success story is here

Motown Pat Morgan (Freelance writer), 2013 In 1959 songwriter Berry Gordy Jr founded the Motown record label in Detroit The company name became synonymous with great music as Gordy took the sound of black America to the world Starting with Barrett Strong's **Motown Encyclopedia** Graham Betts, 2014-06-02 Motown means different things to different people The mere mention of perhaps the most iconic record label in history is often enough to invoke memories and mental images of Marvin Gaye Diana Ross Stevie Wonder The Temptations The Jackson 5 The Supremes and numerous others With each group recalled there is an accompanying piece of music of the mind from Baby Love My Girl Signed Sealed Delivered I Heard It Through The Grapevine ABC and Tears Of A Clown and countless more Quite often you can ask people what kind of music they like and they will simply answer Motown and both they and you know exactly what is meant Or rather what is implied The Motown they are invariably thinking of is the label that dominated the charts in the mid 1960s with a succession of radio friendly dance orientated hits most of which were written and produced by the trio of Brian Holland Lamont Dozier and Eddie Holland This period is referred to naturally enough as the Golden Era when Motown was not only the dominant force in its home city of Detroit but carried The Sound of Young America all around the world The kind of music that had them Dancing In the Street from Los Angeles to London Miami to Munich and San Francisco to Sydney It was the kind of music that attracted scores of imitators some good some not so good The kind of music that appealed to the public and presidents alike and still does It was that Motown that this book was intended to be about However when you start digging deeper into the Motown story you realise that throughout its life which for the purposes of this book is its formation in 1959 through to its sale in 1988 it was constantly trying other musical genres looking to grab hits out of jazz country pop rock middle of the road and whatever else might be happening at the time Of course it wasn't particularly successful at some of the other genres although those who claim Motown never did much in the rock market conveniently
