Trans-jurisdictional Water Law and Governance Janice Gray, Cameron Holley, Rosemary Rayfuse, 2016-06-23

Governance of global water resources presents one of the most confounding challenges in contemporary natural resource governance. With considerable government, citizen and financial donor attention devoted to a range of international, transnational and domestic laws and policies aimed at protecting and sustainably using fresh and coastal marine water resources, this book proposes that sustainable water outcomes require a trans-jurisdictional approach to water governance. Focusing on the concept of trans-jurisdictional water governance, the book diagnoses barriers and identifies pathways to coherent and coordinated institutional arrangements between and across different bodies of laws at local, national, regional and international levels. It includes case studies from the European Union, Australia, New Zealand, South Africa, the United States and Southeast Asia. Leading specialists offer insights into the pretence and the promise of trans-jurisdictional water governance and provide readers including students, practitioners, policy makers and academics with a basis for better analysing, articulating and synthesising standards of good trans-jurisdictional water governance both in theory and in practice. Archives, Objects, Places and Landscapes Manyanga, Munyaradzi, Chirikure, Shadreck, 2017-04-11

Dissatisfaction has matured in Africa and elsewhere around the fact that often the dominant frameworks for interpreting the continent's past are not rooted on the continent's value system and philosophy. This creates knowledge that does not make sense especially to local communities. The big question therefore is: can Africans develop theories that can contribute towards the interpretation of the African past using their own experiences? Framed within a concept revision substrate, the collection of papers in this thought-provoking volume argues for concept revision as a step towards decolonizing knowledge in the post-colony. The various papers powerfully expose that cleansed knowledge is not only locally relevant; it is also locally accessible and globally understandable. Conservation Agriculture for Africa Amir H Kassam, Saidi Mkomwa, Theodor Friedrich, 2016-12-14

Tillage agriculture has led to widespread soil and ecosystem degradation globally. This is especially so in Africa where traditional and modern tillage-based agricultural practices have become unsustainable due to severe disturbance and exploitation of natural resources with negative impacts on the environment and rural livelihoods. In addition, agriculture in Africa today faces major challenges including increased costs of production and energy, the effects of climate change and the lack of an effective

paradigm for sustainable intensification especially for small and medium size holdings Africa is facing a serious challenge to food security and as a continent has not advanced towards eradicating hunger In addition the population is still growing much faster than on most other continents This pressure has led to the emergence of no till conservation agriculture as a serious alternative sustainable agriculture paradigm In Africa in recent years conservation agriculture techniques and methods have spread to many countries as greater development education and research effort are directed towards its extension and uptake This book is aimed at agricultural researchers and scientists educationalists and agricultural service providers institutional leaders and policy makers working in the fields of sustainable agriculture and international development and also at agroecologists conservation scientists and those working on ecosystem services

New South African Review 6 Devan Pillay, Gilbert M Khadiagala, Roger Southall, Sarah Mosoetsa, Samuel Kariuki, 2018-01-29 Wide ranging essays demonstrate how the consequences of inequality extend throughout society and the political economy Despite the transition from apartheid to democracy South Africa is the most unequal country in the world Its extremes of wealth and poverty undermine intensifying struggles for a better life for all The wide ranging essays in this sixth volume of the New South African Review demonstrate how the consequences of inequality extend throughout society and the political economy crippling the quest for social justice polarising the politics skewing economic outcomes and bringing devastating environmental consequences in their wake Contributors survey the extent and consequences of inequality across fields as diverse as education disability agrarian reform nuclear geography and small towns and tackle some of the most difficult social political and economic issues How has the quest for greater equality affected progressive political discourse How has inequality reproduced itself despite best intentions in social policy to the detriment of the poor and the historically disadvantaged How have shifts in mining and the financialisation of the economy reshaped the contours of inequality How does inequality reach into the daily social life of South Africans and shape the way in which they interact How does the extent and shape of inequality in South Africa compare with that of other major countries of the global South which themselves are notorious for their extremes of wealth and poverty South African extremes of inequality reflect increasing inequality globally and The Crisis of Inequality will speak to all those general readers policy makers researchers and students who are demanding a more equal world

Multinational Interest & Development in Africa Ilan Bijaoui, 2017-02-17 This book analyzes the current economic situations in African countries at the local regional and national level It examines the growing interest from developed and developing countries to invest in Africa and their different reasons for doing so which aren't always aligned with the interests of African countries Growth in African GDP has benefitted mainly multinational corporations while the rest of the population remains at the subsistence level creating a smaller middle class and less opportunity for local businesses to flourish This book offers potential models of cooperation which could create added value for both African countries and the MNCs investing in them

African Youth Cultures in a Globalized World Paul

Ugor, Lord Mawuko-Yevugah, 2016-03-09 All over the world there is growing concern about the ramifications of globalization late modernity and general global social and economic restructuring on the lives and futures of young people Bringing together a wide body of research to reflect on youth responses to social change in Africa this volume shows that while young people in the region face extraordinary social challenges in their everyday lives they also continue to devise unique ways to reinvent their difficult circumstances and prosper in the midst of seismic global and local social changes Contributors from Africa and around the world cover a wide range of topics on African youth cultures exploring the lives of young people not necessarily as victims but as active social players in the face of a shifting late modernist civilization With empirical cases and varied theoretical approaches the book offers a timely scholarly contribution to debates around globalization and its implications and impacts for Africa s youth *Annual Report Mpumalanga* (South Africa).
