classroom on the playground and in extra mural activities as well as instilling a human rights culture It means constructing curricula texts and pedagogies that are informed by a democratic ethos and it requires teachers school managers and communities that are equipped to promote a democratic school environment In short it is about inclusivity and social cohesion And the issue of integration is as pertinent internationally as it is in South Africa questions of race racism citizenship and diversity are central to school systems throughout the world This book contains the proceedings of a colloquium held in October 2003 attended by leading South African and international researchers to take stock of the status quo in school integration and identify new directions research should be taking to support the process of change
