**Re-thinking Adult Education Research. Beyond the Pandemic** Vanna Boffo, Regina Egetenmeyer, 2023-08-04 This work is the result of the European INTALL Project International and Comparative Studies for Students and Practitioners in Adult Education and Lifelong Learning 2018-2021. From early September 2018 to the end of August 2021, this project allowed us to build knowhow about some specific issues of adult education. The latest meeting of the INTALL project partners led to a conference about the role of Adult Education Research during and after Covid-19 and the importance of rethinking Lifelong and Lifewide Learning for the future. Based on four sections: Innovation and Future Competences in Adult Education Research; Professionalisation in Adult Education; Sustainability; Inclusion and Wellbeing; Topics for Adult Society and Smart Cities and Learning and Teaching in Higher Education in Post-Pandemic Time: A Digital Transformation, the volume represents an opportunity to foster a debate on key issues in the field of Adult Learning and Education across Europe. *Innovating Counseling for Self- and Career Construction* Jacobus Gideon (Kobus) Maree, 2020-06-29 This book sets out to provide context for innovating counseling for self and career construction. It gives readers insight into the theory underlying an innovative integrative qualitative quantitative approach to career counseling. Three key ideas recur throughout the book. First, the idea of not dispensing advice to people, instead enabling them to advise themselves. Second, the idea of listening for, instead of to, people's stories to help them choose and construct careers and themselves and shape their career identities. Third, the idea of helping people connect what they know about themselves consciously with what they are aware of subconsciously. The book confronts some of the main challenges posed by Work 4.0 on the workplace, but also foreshadows the imminent advent of Work 5.0. It endeavors to promote career counselors' ability to help people thrive at a time when many speculate that work itself is at risk; occupational contexts no longer hold workers in the way they used to, and the coronavirus pandemic is disrupting the workplace. *A framework for continuous quality improvement for fast-track queues in clinics in eThekweni* Dudu G. Sokhela, 2024-05-31 This book explores primary health care users who visit the clinic for short consultations: those who regularly come to collect medication for chronic illnesses such as hypertension, diabetes mellitus, arthritis, epilepsy, tuberculosis, HIV and AIDS; clients for family planning; and babies coming for routine weight monitoring, immunisation and routine prophylactic treatment. Since these health care users come for short consultations, the research investigates where the bottlenecks in the clinic queues resulted in long waiting times and if these consultations were of expected quality. This book arose from the author's own experience working in a primary health care setting focused on the challenges faced by patients. This book will add to the body of knowledge and management of health care users, as this book offers practical recommendations that are tailor-made for specific health care users to be implemented by primary health care.
