Mpumalanga Geography November 2013 Paper 1:

Human Geographies of Stellenbosch Ronnie Donaldson, 2021-02-11 Amid a growing turn towards Southern cities South African urban geographers continue to remind us why and how to attend to local context and draw on theory from elsewhere Human Geographies of Stellenbosch Transforming Space Preserving Place edited by Ronnie Donaldson provides a deep look at crucial questions facing one of South Africa's most well known town cities Written from years of local knowledge by scholars at Stellenbosch University this volume asks what urban transformation means who it is for and the politically tantalising question of whether and how we might hold on to some of the old while aspiring towards the new In a global context in which we are all searching for how to justly remember our messy past how to decolonise and hold onto what makes places unique this volume will be of interest to scholars asking such questions in and beyond urban studies

Secondary Cities and Development Lochner Marais, Etienne Nel, Ronnie Donaldson, 2016-05-20 The role secondary cities play in the global space economy and national urban hierarchies is increasingly receiving attention from scholars and international agencies most notably the Cities Alliance Secondary Cities and Development considers the role of secondary cities through the lens of South Africa a middle income country with characteristics of both the developed and developing worlds This book brings together a broad overview of international literature on secondary cities in South Africa and mirrors them against global experience Chapters emphasize the importance of secondary cities as regional services areas their potential roles in rural development the vulnerabilities to which they are prone and their significant potential By means of review six South African case studies and an assessment of contemporary policy approaches towards these cities this unique volume provides insight into a spectrum of globally significant challenges This book would be of interest to academics and policy makers working in urban studies or regional development
