Contextualising Rural Education in South African Schools, 2023-04-03 South Africa's democratic government inherited a divided and unequal system of education. Under apartheid, South Africa had nineteen different educational departments separated by race, language, geography, and ideology. This education system prepared learners in different ways for the positions they were expected to occupy in social, economic, and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class. The newly elected democratic government in 1994 laid a foundation for a single national education system. Twenty-five years after the dawn of democracy, education is still in a parlous state in many communities in South Africa, but it is in the rural areas, mainly in the former homelands, that learners are most disadvantaged. Contributors are Olufemi Timothy Adigun, Oluwatoyin Ayodele, Ajani Alan Bhekisisa, Buthelezi Joyce Phikisile, Dhlamini Bongani Thulani, Gamede Samantha, Govender Lawrence, Kehinde Nontobeko, Prudence Khumalo, Primrose Ntombenhle, Khumalo Azwidohwi, Philip Kutame, Manthekeleng Linake, Sive Makeleni, Nkhensani Maluleke, Bothwell Manyonga, Mncedisi Christian, Maphalala Takalani, Mashau Hlengiwe, Romualda Mhlongo, Rachel Gugu Mkhasibe, Dumisani Wilfred, Mncube Nicholus, Tumelo Mollo, Ramashego Shila, Mphahlele Fikile, Mthethwa Grace, Matodzi Muremela, Edmore Mutekwe, Nokuthula Hierson, Ndaba Clever, Ndebele Thandiwe, Nonkululeko Ngema, Phiwohule Ngubane, Sindile Ngubane, Dumisani Nzima, Livhuwani Peter, Ramabulana, and Maria Tsakeni. *Hubble ... Working with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebese, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research
