**Nature** Sir Norman Lockyer, 1915      **Global Perspectives on Air Pollution Prevention and Control System Design**  
Venkatesan, G., Thirumal, Jaganthan, 2019-06-25 Once pollutants are released into the atmosphere they cannot be removed easily nor can the reaction with atmospheric constituents be ceased. However, through enhancing our understanding of control technology, further addition of pollution can be forestalled. Through better understanding of innovations in the field of air pollutant control technology and modelling, better cost-effective control equipment can be designed to achieve a clean biosphere for sustainable life in the near future. *Global Perspectives on Air Pollution Prevention and Control System Design* is a pivotal reference source that provides vital research on the understanding of the basic concepts of air pollution modeling, concepts, development of various models for source-specific pollutants and dispersion. While highlighting topics such as climate change, fossil fuels, and motor vehicle emissions, this publication explores the links between the global impact on climate change and modeling concepts of indoor air pollutants. This book is ideally designed for professors, students, researchers, environmental agencies, environmentalists, policymakers, and government officials seeking current research on future solutions in critical fields of air pollution.      *Improving Schools and Educational Systems* Alma Harris, Janet Hageman  
Chrispeels, 2006-04-18 School improvement has become a dominant feature of educational reform in many countries. The pressure upon schools to improve performance has resulted in a wide range of improvement programmes and initiatives which can provide both inspiration and advice to everyone involved in school improvement. This book draws together the most effective school improvement projects from around the world in one comprehensive text, including detailed comparative analysis of a wide variety of initiatives. Drawing on examples from the UK, the USA, Canada, South Africa, and Australia, this book gives both an international snapshot and a coherent synthesis of initiatives that have given achievable results.      **The Athenaeum**, 1886      Romanian Journal of Physics, 2005      Chemical News and Journal of Industrial Science, 1905
