**Arab Dawn** Bessma Momani, 2015-11-26 In the West news about the Middle East is dominated by an endless stream of reports and commentary about civil war sectarian violence religious extremism and economic stagnation But do they tell the full story For instance who knew that university enrolment in the war torn Palestinian territories exceeds that of Hong Kong or that more than a third of Lebanese entrepreneurs are women Change is on its way in the Middle East argues Bessma Momani and its cause is demographic Today one in five Arabs is between the ages of fifteen and twenty four Young optimistic and increasingly cosmopolitan their generation will shape the region's future Drawing on interviews surveys and other research conducted with young people in fifteen countries across the Arab world Momani describes the passion for entrepreneurship reform and equality among Arab youth With insightful political analysis based on the latest statistics and first hand accounts Arab Dawn is an invigorating study of the Arab world and the transformative power of youth **The Life**

**of Permafrost** Pey-Yi Chu, 2020-12-07 In the Anthropocene the thawing of frozen earth due to global warming has drawn worldwide attention to permafrost Contemporary scientists define permafrost as ground that maintains a negative temperature for at least two years But where did this particular conception of permafrost originate and what alternatives existed The Life of Permafrost provides an intellectual history of permafrost placing the phenomenon squarely in the political social and material context of Russian and Soviet science Pey Yi Chu shows that understandings of frozen earth were shaped by two key experiences in the Russian Empire and the Soviet Union On one hand the colonization and industrialization of Siberia nourished an engineering perspective on frozen earth that viewed the phenomenon as an aggregate physical structure ground On the other a Russian and Soviet tradition of systems thinking encouraged approaching frozen earth as a process condition and space tied to planetary exchanges of energy and matter Aided by the US militarization of the Arctic during the Cold War the engineering view of frozen earth as an obstacle to construction became dominant The Life of Permafrost tells the fascinating story of how permafrost came to acquire life as Russian and Soviet scientists studied named and defined it **Governomics** Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well funded health system to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We've grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn't have to be this way Governomics shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you're not sure that's true read this book Ross Gittins Sydney Morning Herald and The Age Governomics shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow
