Apollo in the Age of Aquarius Neil M. Maher, 2017-03-27 Winner of the Eugene M Emme Astronautical Literature Award A Bloomberg View Must Read Book of the Year A Choice Outstanding Academic Title of the Year A substance rich original on every page exploration of how the space program interacted with the environmental movement and also with the peace and Whole Earth movements of the 1960s Tyler Cowen Marginal Revolution The summer of 1969 saw astronauts land on the moon for the first time and hippie hordes descend on Woodstock This lively and original account of the space race makes the case that the conjunction of these two era defining events was not entirely coincidental With its lavishly funded mandate to put a man on the moon the Apollo mission promised to reinvigorate a country that had lost its way But a new breed of activists denounced it as a colossal waste of resources needed to solve pressing problems at home Neil Maher reveals that there were actually unexpected synergies between the space program and the budding environmental feminist and civil rights movements as photos from space galvanized environmentalists women challenged the astronauts boys club and NASA s engineers helped tackle inner city housing problems Against a backdrop of Saturn V moonshots and Neil Armstrong s giant leap for mankind Apollo in the Age of Aquarius brings the cultural politics of the space race back down to planet Earth As a child in the 1960s I was aware of both NASA s achievements and social unrest but unaware of the clashes between those two historical currents Maher captures the maelstrom of the 1960s and 1970s as it collided with NASA s program for human spaceflight George Zamka Colonel USMC Ret and former NASA astronaut NASA and Woodstock may now seem polarized but this illuminating original chronicle traces multiple crosscurrents between them Nature

Management of Legionella in Water Systems National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division on Earth and Life Studies, Board on Population Health and Public Health Practice, Board on Life Sciences, Water Science and Technology Board, Committee on Management of Legionella in Water Systems, 2020-02-20 Legionnaires disease a pneumonia caused by the Legionella bacterium is the leading cause of reported waterborne disease outbreaks in the United States Legionella occur naturally in water from many different environmental sources but grow rapidly in the warm stagnant conditions that can be found in engineered water systems such as cooling towers building plumbing and hot tubs Humans are primarily exposed to Legionella through inhalation of contaminated aerosols into the respiratory system Legionnaires disease can be fatal with between 3 and 33 percent of Legionella infections leading to death and studies show the incidence of Legionnaires disease in the United States increased five fold from 2000 to 2017 Management of Legionella in Water Systems reviews the state of science on Legionella contamination of water systems specifically the ecology and diagnosis This report explores the process of transmission via water systems quantification prevention and control and policy and training issues that affect the incidence of Legionnaires disease It also analyzes existing knowledge gaps and recommends research priorities moving forward

The Truth Pill Dinesh Singh Thakur, Prashant Reddy Thikkavarapu, 2022-10-10 Since 2004

when the fraud at Ranbaxy the largest Indian pharmaceutical company at the time first came to light the Indian pharmaceutical industry and clinical research organizations have been rocked by a series of scandals after investigations by American and European drug regulators While the West has responded to concerns about quality of Made in India medicine by blocking exports from many Indian pharmaceutical companies the Indian government responded not with regulatory reform but conspiracy theories about vested interests working against India More worryingly the Indian state has also turned a blind eye to a far more serious quality crisis in its domestic pharmaceutical market At times these quality issues manifest themselves in the deaths of Indian citizens as happened in early 2020 when 11 children died in Jammu because of adulterated cough syrup On other occasions a dodgy drug approval process has led to the Indian regulator approving sales of drugs that have never been approved by regulators in the developed markets The result is not just poor health outcomes but outsize profits for pharmaceutical companies manufacturing medicines that have never been validated through scientifically rigorous clinical trials for therapeutic evidence These twin crises in both the domestic and export markets is because India has either outdated regulations or no regulations in some areas Even the outdated regulations are enforced with kids gloves by drug inspectors and judicial magistrates who are ready to forgive even those whose drugs are found to contain barely any active ingredient or dangerously high levels of bacterial endotoxins In a race for growth of the pharmaceutical industry the Indian state has sacrificed scientific rigour and ignored the basic principles of public health Given India s position as the pharmacy of the developing world the failure of the Indian state is a problem for not just India but most of the developing world This timely important and compelling book based on deep research questions and analyzes the actions of the institutions that are responsible for the safety and efficacy of the Indian drug supply in the context of the historical evolution of the Drugs Act 1940 from pre Independence India to the present day The future of Indian public health lies in responding to the issues raised in this book

Forced Marriage and 'Honour' Killings in Britain Christina Julios,2016-03-09 This book explores the contemporary phenomenon of forced marriage and honour killings in Britain Set against a background of increasing honour based violence within the country s South Asian and Muslim Diasporas the book traces the development of the honour question over the past two decades It accordingly witnesses unprecedented changes in public awareness and government policy including ground breaking honour specific legislation and the criminalisation of forced marriage All of which makes Britain an important context for the study of this now indigenous and self perpetuating social problem In considering the scale of the challenge and its underlying causes attention is paid to the intersections of gendered power structures that disadvantage female members of honour cultures as well as feminist theories that seek to explain them The book features five key case studies of honour killings and draws from a wide range of narratives including those of honour violence survivors grassroots service

providers and legislators Such myriad of perspectives reveals the complexity of the honour issue and the deep ideological divisions that characterise it With the UK s multiculturalist discourse unable to reconcile protecting patriarchal minority cultures with safeguarding gender equality and human rights the book raises fundamental questions about the country s future direction Following a long trend of state sponsored integrationist policies the government s response to the honour question points decisively in the direction of a post multicultural British nation
