Lights Out The Party S Over:

The Party's Over Richard Heinberg, 2005-08-01 The world is about to run out of cheap oil and change dramatically Within the next few years global production will peak Thereafter even if industrial societies begin to switch to alternative energy sources they will have less net energy each year to do all the work essential to the survival of complex societies We are entering a new era as different from the industrial era as the latter was from medieval times In *The Party s Over* Richard Heinberg places this momentous transition in historical context showing how industrialism arose from the harnessing of fossil fuels how competition to control access to oil shaped the geopolitics of the 20th century and how contention for dwindling energy resources in the 21st century will lead to resource wars in the Middle East Central Asia and South America He describes the likely impacts of oil depletion and all of the energy alternatives Predicting chaos unless the U S the world s foremost oil consumer is willing to join with other countries to implement a global program of resource conservation and sharing he also recommends a managed collapse that might make way for a slower paced low energy sustainable society in the future More readable than other accounts of this issue with fuller discussion of the context social implications and recommendations for personal community national and global action Heinberg s updated book is a riveting wake up call for humankind as the oil era winds down and a critical tool for understanding and influencing current U S foreign policy Listen to an interview with Richard Heinberg from WRPI

Godfat's Door Christopher Grosso, 2018-04-22 Humankind is faced with a sudden new problem When people fall asleep they die If you want to live you need to stay awake With sleep bringing death the world descends into chaos outside of Godfat s apartment door His two neighbors convince Godfat that they should gather together in his apartment and keep one another awake While humanity takes a collective dirt nap strange happenings occur inside and outside Godfat s door that cannot be explained The longer the three neighbors stay conscious the more they come to realize that they might be the only people in the world left awake
