Marketing For Competitiveness: Asia To The World - In The Age Of Digital Consumers Philip Kotler, Hermanwan Kartajaya, Den Huan Hooi, 2016-11-24 Asia is the most populated geographical region with 50% of the world's inhabitants living there. Coupled with the impressive economic growth rates in many Asian countries, the region provides a very attractive and lucrative market for many businesses, big and small, and from all industries. In addition, Asia is also a dynamic market that significantly grows with developments in technology and digitalization. For example, a research by Google and Temasek shows that Southeast Asia is the world's fastest growing internet region. The internet economy in Southeast Asia is expected to grow by 6.5 times from US \$31 billion in 2015 to US \$197 billion in 2025. All these make it critical for marketers, whether domestic, regional, or global, to stay in touch if not ahead in their understanding of what is happening in Asia from a marketing perspective and what Asia has to offer to the world. One phenomenon happening in the Asian market and which marketers should pay utmost attention to is the rapidly unfolding digital revolution that has fundamentally transformed not just the extent but also the nature of competition. What makes it even more challenging and complicating is also how such a revolution impacts on consumer and business buying behavior. Disruptive technologies supported by this digital revolution have brought in new competitors and enabled existing competitors to surpass the conventional boundaries which we may be quite familiar with. Asian consumers have become more educated and connected and have embraced newer ways of selecting, buying, and using products and services. In this book, the Father of Modern Marketing, Professor Philip Kotler, has collaborated with two marketing experts from Asia: Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore to publish a book on Marketing for Competitiveness: Asia to the World in the Age of Digital Consumers. This book argues that marketing is no longer just vertical but has encompassed a new, more horizontal paradigm. In addition to many new concepts and frameworks, this book includes a plethora of real-world examples from various countries in Asia which will help to shed light on how companies, both Asian and global, compete in Asia. Useful lessons can be drawn by all businesses in the world on how to win the mind, heart, and spirit of the Asian consumer, digital and non-digital.

Women Behind the Wheel Nancy A. Nichols, 2024-03-05 From the adolescent thrill of getting a driver's license to the dreaded commutes of adulthood, from vintage muscle cars to electric vehicles, this groundbreaking book reveals the outsized impact the car has had and will continue to have on the lives of women. Since their inception, cars have defined American culture, but until quite recently, car histories were largely written by and about men, with little attention given to the fascinating story of women and cars. In this engaging non-fiction narrative, Nancy A. Nichols, the daughter of a used car salesman, uses the cars her father sold and the ones her family drove to tell a larger story about how the car helped to define modern womanhood. From her sister's classic Mustang to her mother's Chevy

Convertible to her own Honda minivan Nichols tells a personal story in order to shed light on a universal one Cars helped women secure the right to vote changed the nature of romance and influenced both fashion and child rearing customs In the just over 100 years since their inception cars have created possibilities for commerce and romance even as they exposed women to new kinds of danger Women Behind the Wheel explores the uniquely gendered landscape of the automobile detailing the many reasons why cars are both more expensive and more dangerous for women drivers The automobile is on the cusp of momentous change As we advance into the era of electric connected and autonomous vehicles Nichols shows us why we should hit the brakes and look back in the rear view mirror at this long and fascinating history What is the role of the car in our lives Should we be more skeptical of technology in our society In Women Behind the Wheel Nichols argues convincingly that only by understanding the many ways the car has changed us can we hope to prepare ourselves for this brave new era

Focus On: 100 Most Popular Compact Cars Wikipedia contributors, **Focus On: 100 Most Popular Sedans** Wikipedia contributors, **Unsettled Issues Concerning the Economics of Fuel Cells and Electric Ground Vehicles** Bart Kolodziejczyk,2020-06-03 This SAE EDGE Research Report looks at the pros and cons of moving this technology forward and brings recommendations to facilitate a smooth transition from fossil fuel based to hydrogen based mobility Unsettled Issues Concerning the Economics of Fuel Cells and Electric Ground Vehicles discusses the unsettled economic aspects of hydrogen and fuel cell applications in the automotive industry Lately the idea of using hydrogen in automotive applications is gaining momentum While the concept of using clean hydrogen fuel generated from water via electrolysis is nothing new previous efforts to mainstream the technology failed miserably About a decade ago the fuel cell technology which efficiently converts hydrogen and atmospheric oxygen into electricity was not as advanced and the fuel cell prototypes were bulky and expensive Yet many new fuel cell electric vehicles FCEVs have emerged and hydrogen refueling infrastructure is being built globally Despite the important steps forward hydrogen generation and fuel cells are still costly and cannot compete with fossil fuel based solutions While it can be a viable tool in combating climate change and air pollution hydrogen currently hardly makes a business case And although many hydrogen infrastructure developments are fueled by government subsidies and fear of carbon tax detailed economic evaluation suggests that creating a hydrogen economy of scale can reduce technology costs creating the window of opportunity it needs to become a concrete global market player Click here to access the full SAE EDGETM Research Report portfolio <https://doi.org/10.4271/EPR2020002>
