Frommer's Thailand John Bozman, 1997 Thailand has come into its own as a premier Asian destination and Frommer's holds the key to worry free travel in this exotic land with insider tips on planning getting around etiquette and local customs Readers visit spectacular beaches majestic temples and elephant trekking in the Northern Hills This guide also help guide travelers through the confusing bustling but intriguing city of Bangkok *Phasing Out Polluting Motorcycles in Bangkok*, 2004 Xie Shah Capannelli and Wang use a contingent valuation method to study the design of economic incentives to phase out polluting motorcycles in Bangkok Like in many other cities the government of Bangkok has been considering a series of control measures to discourage and eventually eliminate the use of heavily polluting motorcycles Two of the possible policy instruments under consideration are charges on those polluting vehicles which are operating in the streets and compensation to those polluting vehicles which would stay off the roads The policy research questions then include 1 what are the charges implied or compensation provided given a policy target and 2 what are the reactions of motorcycle owners to those charges or compensation To answer those policy questions the authors conducted a stochastic contingent valuation survey in Bangkok to question motorcycle owners on the likelihood they would keep or give up riding their motorcycles in the streets given certain charges or compensations Results show that among others about 80 percent of those motorcycles which did not pass the emission tests would be off the streets if a charge of 1 000 baht a year was levied while under a one time compensation of 10 000 baht the number would be about 50 percent The authors also estimate the average values of maximum willingness to pay WTP for staying on the road and minimum willingness to accept WTA compensation for staying off the street and analyze the determinants of WTP and WTA Their econometric analysis shows that among other factors household income fuel costs use of motorcycles and or public transit affect the value of WTP and WTA This paper a product of Infrastructure and Environment Development Research Group is part of a larger effort in the group to study environmental policy issues in developing countries World Bank web site **Asiamoney**, 2000 **Start Up and Stay Up in Thailand** Roy Tomizawa, 1998 The Report: Indonesia 2014 Oxford Business Group, 2014-05-21 On the cusp of 2014 national elections and the 2015 integration of the ASEAN Economic Community Indonesia is poised to continue its rapid economic expansion While the country's natural resources are still plentiful by channelling foreign direct investment into the right
