Life Science Trial Examination Question Paper 2 2014:

Diverse Excursions in the Southeast: Paleozoic to Present Ann E. Holmes, 2015-03-09 This volume contains field guides to the 2015 GSA Southeastern Section Meeting's field trips. The guides explore geologic history and visit four regional geologic provinces: the Nashville dome, Blue Ridge Valley and Ridge, and Cumberland Plateau. Stem Cell Battles D. O. N. C. REED, 2015-10-06 This is a one-of-a-kind book combining easy-to-understand science in the trenches, political warfare, and inspirational stories. It aims to give hope to individuals and families who suffer from chronic disease or disability, to point out how ordinary people can make an extraordinary difference in the battle to ease suffering and save lives through supporting medical research, to share in people talk some of the amazing progress already achieved in the new field of stem cell research, to show how even such a magnificent success as the California stem cell program is under constant attack from ideological groups, to offer medical research as a force for international cooperation, to suggest how cure research lessens the need for the mountainous costs of endless care. Unparalleled background: the author has been involved in virtually every important stem cell battle, state, national, and international, since embryonic stem cell research began. The author works closely with Robert N. Klein, sponsor of the California stem cell program, the largest source of such stem cell research funding in the world. In addition, the author is an award-winning teacher as well as writer and seeks to entertain as well as educate. His book is not only substantive but also fun. The book would be a treasured gift for anyone suffering an incurable illness or who is a caregiver for a loved one, for a college student considering a rewarding career in biomedicine, for scientists who want to protect and enhance their research funding, and for anyone who wants to see government respond to the needs of its citizenry. Chronic disease and disability are a prison; cure is the triumphant escape. Wheelchairs should be for temporary occupancy only. *ECGBL2014-8th European Conference on Games Based Learning* Carsten Busch, 2014-11-11

The International Criminal Court and the Responsibility to Protect Stefano Marinelli,2022-07-28 This book examines the parallel development and interaction between the International Criminal Court ICC and the doctrine of the Responsibility to Protect RtoP assessing this relationship over time and through case studies of Darfur Libya and Syria The similarities and connections between the doctrine and the Court have been highlighted by UN bodies the organs of the Court and scholars yet their relationship and common impact on international law have been less explored This book fills this gap in presenting an overview of how the development of RtoP and the ICC affect various branches of international law The research shows that while the doctrine and the Court experienced significant implementation problems in their first decades of life they nonetheless have the potential to contribute to the historical evolution of international law in combining their values of promoting international peace and protecting human rights This interdisciplinary study will be useful for scholars of international law and international relations It will also be beneficial to persons working for international organisations and for civil society organisations focused on the activity of the ICC and on the development of RtoP
