Male Suicide and Masculinity in 19th-century Britain Lyndsay Galpin,2022-04-07 This book shows how interpretations of suicidal motives were guided by gendered expectations of behaviour and that these expectations were constructed to create meaning and understanding for family friends and witnesses Providing an insight into how people of this era understood suicidal behaviour and motives it challenges the assertion that suicide was seen as a distinctly feminine act and that men who took their own lives were feminized as a result Instead it shows that masculinity was understood in a more nuanced way than gender binaries allow and that a man s masculinity was measured against other men Focusing on four common narrative types the love suicide the unemployed suicide the suicide of the fraudster or speculator and the suicide of the dishonoured soldier it provides historical context to modern discussions about the crisis of masculinity and rising male suicide rates It reveals that narratives around male suicides are not so different today as they were then and that our modern model of masculinity can be traced back to

the 19th century **Sustainable Smart Cities in India** Poonam Sharma, Swati Rajput, 2017-03-27 This book presents fundamental and applied research aimed at the development of smart cities across India Based on the exploration of an extensive array of multidisciplinary literature this book discusses critical factors of smart city initiatives management and organization technology governance policy people and communities economy infrastructure and natural environment These factors are broadly covered under the integrative framework of the book to examine the vision and challenges of smart city initiatives The book suggests directions and agendas for smart city research and outlines practical implications for government professionals students research scholars and policy makers A lot of work is happening on smart cities as it is an upcoming area of research and development At international level and even in India the concept of smart cities concept is a hot topic at universities research centers ministries transport departments civic bodies environment energy and disaster organizations town planners and policy makers This book provides ideas and information to government officials investors experts and research students Rankings and the Reshaping of Higher Education Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars **Growing Community Forests** Ryan Bullock, Gayle Broad, Lynn Palmer, M.A. (Peggy) Smith, 2017-10-13 Canada is experiencing an unparalleled crisis involving forests and communities across the country While municipalities policy makers and industry leaders acknowledge common challenges such as an overdependence on US markets rising energy costs and lack of diversification no common set of solutions has been developed and implemented Ongoing and at times contentious public debate has revealed an appetite and need for a fundamental rethinking of the relationships that link our communities governments industrial partners and forests towards a more sustainable future The creation of community forests is one path that promises to build resilience in forest communities and ecosystems This model provides local control over common forest lands in order to activate resource development opportunities benefits and social responsibilities Implementing community forestry in practice has proven to be a complex task however there are no road maps or well developed and widely tested models for community forestry in Canada But in settings where community forests have taken hold there is a rich and growing body of experience to draw on The contributors to Growing Community Forests include leading researchers practitioners Indigenous representatives government representatives local advocates and students who are actively engaged in sharing experiences resources and tools of significance to forest resource communities policy makers and industry *Honour Based Crimes and the Law* Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour

based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies *Food and Cooking Skills*

Education Anita Tull, 2018-01-29 *Food and Cooking Skills Education* FCSE is a complex mix of policy and practicality educational theory and pedagogy classroom and government policy This book shows how FCSE has been at the centre of a tussle between education and policy for decades It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready made food has become commonplace and public knowledge of where our food comes from is noticeably lacking This has contributed to the escalating incidence of diet related diseases and the attendant cost to society and threatened environmental sustainability In turn governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs Based on detailed research conducted across England and Wales as well as comparisons with thirty five other countries or states the author makes recommendations for policy to manage this challenge facing contemporary society **Canadian Journal of**
