**Teaching Responsible Behavior** Mary M. Wood,Constance Quirk,Faye L. Swindle,2007 Teaching children and teenagers about responsible behavior is not easy First you must determine what behaving responsibly means for different age groups Next you must understand how responsible behavior can be acquired and how it affects academic achievement Finally you must know which instructional practices are effective This practical guide is intended for educators general and special parents mental health practitioners and paraprofessionals in charge of

adolescents possessing challenging behaviors The instructional strategies provide insight for those already using the Developmental Therapy Developmental Teaching approach yet it maintains a gradual step by step feature offering easy comprehension to the novice The central mission of this manual is teaching students social and emotional competence to achieve responsible behavior The instructional strategies are a combination of transactional sociological and clinical theories Parents and teachers can learn to approach each situation differently carefully matching an individual s needs This revised edition comprises detailed chapters complete with examples to help parents and teachers better understand the complexities of teaching responsible behavior Publisher     Psychodynamic Perspectives on Working with Children, Families, and Schools Michael O'Loughlin, 2012-12-08 With the push toward accountability and test performance in schools there has been a decline in emphasis on creativity imagination and feelings in schools Psychodynamic Perspectives on Working with Children Families and Schools is designed for students and professionals who are interested in restoring such values to their work with children There is an absence of psychoanalytic ways of thinking in conventional professional discourses of schooling With a few notable exceptions the discourses of child development classroom management early childhood education special education school psychology and school counseling have constructed notions of children and schooling that are often behaviorist instrumental and symptom focused Curriculum too often focuses on acquisition of knowledge and behaviors discipline is conceptualized as compliance and symptoms such as anger school resistance etc are pathologized and reacted to out of context children s special needs are often conceptualized instrumentally and children with complex psychological symptoms are delimited depersonalized or simply removed Professionals who work with children psychodynamically draw on diverse frameworks including the work of Anna Freud the long tradition of the Tavistock Clinic in London e g Anne Alvarez Susan Reid Margaret Rustin Frances Tustin etc the writings of Klein Winnicott and their colleagues French analysts e g Piera Aulagnier Didier Anzieu Laurent Danon Boileau Fran oise Dolto Maud Mannoni and Catherine Mathelin and Italian infant child analyst Alessandro Piontelli This work is valuable but often inaccessible to school professionals because the writing is somewhat specialized and because there is no tradition of teaching such work in professional preparation in those fields This collection is theoretically grounded in that the authors share a commitment to valuing children s emotions and understand the usefulness of psychoanalytic approaches for enhancing children s lives It is laden with examples to invite into this discussion those students and professionals who value these ideas but for whom this book may be their first introduction to progressive educational ideals and psychodynamic ways of working with children Psychodynamic Perspectives on Working with Children Families and Schools provides an introductory volume to open the door to the possibility of introducing psychodynamic frameworks to education and human service professors and school professionals and professionals working with children     **Journal of Disability Policy Studies** ,2000     Conflict in the Classroom Nicholas James Long, William Charles Morse, Ruth G.
