Perspectives on Human Dignity: A Conversation Jeff Malpas, Norelle Lickiss, 2007-10-06 The Honourable William Cox AC RFD ED Governor of Tasmania The issue of human dignity was given a new impetus at the end of the Second World War as a reaction to the horrors of the Jewish holocaust and other Nazi atrocities The immediate consequence was its recognition in such international documents as the Charter of the United Nations 1945 and the Universal Declaration of Human Rights 1948 Several new national constitutions likewise gave it recognition Though undefined it was seen as a supreme value possessed by all human beings and one giving rise to rights and obligations in and upon them In recent decades the existence of these rights has led to acceptance of procedures whereby they may be enforced and to the overthrow of such doctrines constraining them as that of Sovereign Immunity In domestic law too there have been ramifications while advances in medical science have raised ethical issues in respect of genetics human cloning and the termination or officious prolongation of life It was timely then that consideration should be given to human dignity by a wide range of researchers and practitioners in disciplines such as law philosophy history political science medicine the arts and theology at the Colloquium in Hobart in 2004 organized by the editors of this volume

Contemporary Biomedical Ethical Issues and Jewish Law Fred Rosner, 2007

Medical Ethics and Law Dominic Wilkinson, Julian Savulescu, Tony Hope, Judith Hendrick, BA, LL.M., 2008-03-06 This is a short textbook of ethics and law aimed primarily at medical students The book is in two sections The first considers general aspects of ethics in the context of medicine the second section covers the topics identified in the consensus agreement The content of medical law is not intended to be comprehensive and relates very much to the ethical issues The law will be updated throughout including consent in light of Mental Capacity Act mental health law in light of Mental Health Act end of life depending on outcome of Burke case and the passage of the Joffe Bill assisted reproduction in light of expected changes in HFEA New guidelines to be added the guidelines and processes around medical research are under review and likely to develop and change GMC guidelines are under continual revision the Burke case in particular may have direct impact but it is also likely that the confidentiality guidelines will undergo revision particularly in view of the increasing importance of genetic data The new legal aspects outlined above will require some changes to the ethical analysis the ethical issues of new technology will be included cloning transgenesis and chimera i.e. forming organisms from more than one species and stem cells resource allocation ethics is moving on to examining a wider range of issues than covered in the first edition and this will be discussed the whole area of mental disorder and capacity to consent is an active area of ethical research and the second edition would cover some of this new work
