But that way of life was very repugnant to most Americans. Since 1954, however, that unrest has resulted in the loss of life, limb, and property, and has cost the taxpayers of this nation tens of billions of dollars. And the end is not yet in sight. With Law Enforcement Agencies in this country continuing to exercise excessive force and murder of its So-called African-American citizenry. Niles, 2010-08-03 It would be difficult to imagine what human life would be like without stories from myths recited by Pueblo Indian healers in the kiva ballads sung in Slovenian market squares folktales and legends told by the fireside in Italy to jokes told at a dinner table in Des Moines for it is chiefly through storytelling that people possess a past In *Homo Narrans* John D. Niles explores how human beings shape their world through the stories they tell The book vividly weaves together the study of Anglo Saxon literature and culture with the author's own engagements in the field with some of the greatest twentieth century singers and storytellers in the Scottish tradition Niles ponders the nature of the storytelling impulse the social function of narrative and the role of individual talent in oral tradition His investigation of the poetics of oral narrative encompasses literary works such as the epic poems and hymns of early Greece and the Anglo Saxon Beowulf texts that we know only through written versions but that are grounded in oral technique That all forms of narrative even the most sophisticated genres of contemporary fiction have their ultimate origin in storytelling is a point that scarcely needs to be argued Niles's claims here are more ambitious that oral narrative is and has long been the chief basis of culture itself that the need to tell stories is what distinguishes humans from all other living creatures *Holistic Philosophy 101* Mishaal Talib Mahfuz El Bey, 2020-05-08 Islam Shalom and good will to those of the good will This work is a combination of philosophies that are proven and verifiable designed to bridge the gap between the abstract and the concrete To quote an aspect of the divine feminine everything is on the other side of your sacrifice and to sacrifice is to use your essence energy to tap into your best reflection which is divine by nature Life is science and science is built with formulae and formulae produces results
