Introduction

You're about to learn a new way to use a computer. If this is your first experience with a computer, you're starting at a great time. If you've used "traditional" computers, you'll really appreciate the Macintosh difference. No more guessing what the computer wants. No more memorizing long commands with numerous arguments could have. With Macintosh, you're in charge.

This chapter teaches what you simply know to use just this much — how to create documents (the name for anything you create on Macintosh), make changes to them, and put them away. It all happens with a few basic techniques, the same techniques you'll use whenever you work with any application on your Macintosh.
