Garrison, 2017-07-24 Managerial Accounting for Managers 4th edition by Noreen Brewer Garrison is based on the market leading managerial accounting solution Managerial Accounting by Garrison Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content and application of key concepts in the managerial accounting course while addressing the needs of instructors who do not wish to teach the financial accounting oriented content that is included in the Garrison solution. No debits credits. Of the three programs in the Garrison franchise, the Brewer solution, the Garrison solution and the Noreen solution, the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions and Segment Reporting and Decentralization; however, the job order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting: planning, control and decision making. McGraw Hill's Connect Accounting offers a complete digital solution that combines all the great features of Connect Accounting, including McGraw Hill's SmartBook powered by LearnSmart, which is designed to help students learn faster and more efficiently and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course critical content anytime, anywhere. Guided Examples provide students with narrated and animated step by step walkthroughs of algorithmic versions of assigned exercises. Auto Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills such as basic formulas and formatting within the context of accounting. These questions feature animated narrated Help and Show Me tutorials when enabled, as well as automatic feedback and grading for both students and professors.
