 Novels for Students for all of your research needs      **An Analysis of Niccolo Machiavelli's The Prince** Riley Quinn, Ben  
 Worthy, 2017-07-05 How should rulers rule What is the nature of power These questions had already been asked when Niccol  
 Machiavelli wrote The Prince in 1513 But what made his thinking on the topic different was his ability to interpret evidence  
 to look at old issues and find new meaning within them Many of Machiavelli's contemporaries thought that God would make  
 sure morality was rewarded To these people it was inevitable that ethical individuals would enjoy success in this world and  
 attain paradise in the next Machiavelli was not so sure He used the evidence of history to prove that people who can lie cheat  
 and murder tend to succeed Machiavelli concluded that three main factors affect a political leader's success or failure In  
 doing so he reached an entirely new understanding of the meaning of his evidence Machiavelli argued that behaving in a  
 moral way actually hinders a ruler If everyone acted morally he reasoned then morals would not be a disadvantage But in a  
 world in which leaders are willing to be ruthless a moral leader would make both themselves and their state vulnerable  
 Machiavelli's novel interpretation posits that morals can make a leader hesitate and this could cost them and the citizens  
 they are responsible for everything      **CliffsNotes on Machiavelli's The Prince** Stacy Magedanz, 2011-05-18 The original
