teaching it at the middle school level and emphasizes the need for increasing the economic literacy of students. It offers valuable recommendations to curriculum planners and educators to help them bolster economics education in Indian schools. The author presents an extensive curriculum framework with the intention of developing intellectual and social skills in students. The book also features classroom tested lessons, content guidelines, and a comprehensive teaching plan for grades 6, 7, and 8. A crucial contribution to the study of school education in India, this book will be of interest to teachers, students, and researchers of education, economics education, and economics. It will also be useful for policy planners, professional economists, administrators, school boards, and research institutions.

**Economic Education Mandate** California. Department of Education, 1991. This handbook provides valuable information for educators to use in developing a one semester high school course on economics. The volume includes activity outlines, a model for assessment, and a list of resources to enhance instruction in economics. The handbook identifies methods to enrich instruction using the state mandated economic component of the California high school curriculum. Chapter 1 reviews the basic components of microeconomics, macroeconomics, economic systems, and international trade as part of the course content. Chapter 2 describes issues oriented activities to enliven economic concepts. Ten modules provide opportunities to encourage students to study economics through the application of basic concepts. Chapter 3 identifies the conceptual, semantic, and attitudinal hurdles that can interfere with a student's learning of economics. Chapter 4 illustrates a model for the assessment of student learning in a high school economics course. An appendix identifies 53 resources and addresses for further information to enhance high school economics instruction. CK
