

**WARNING:**

Do not use this crib if the enclosed or attached instructions cannot be strictly adhered to. Do not use this crib if the child is able to climb out unaided or is taller than 90 cm. Do not place cords, straps or similar items that could become wound around the child's neck in or near this crib. The mattress used with this crib should not be more than 15 cm thick and should be of such length and width that the gap between the mattress and the sides of the crib is not more than 3 cm when the mattress is pushed into the corner of the crib.

09-004

**WARNING:**

Failure to follow these warnings and assembly instructions could result in serious injury or death.

- Read all instructions before assembling crib. KEEP INSTRUCTIONS FOR FUTURE USE.
- Before each usage or assembly, inspect crib for damaged hardware, loose joints, missing parts or sharp edges. DO NOT use crib if any parts are missing or broken. Telephone or write to Legacy Classic Kids for replacement parts and instructional literature if needed. DO NOT substitute parts.
- DO NOT use a water mattress with this crib.
- DO NOT place crib near window where cords from blinds or drapes may strangle a child.
- When child is able to pull to standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.
- Infants can suffocate on soft bedding. Never add a pillow, comforter, or padding.
- If refinishing, use a non-toxic finish specified for children's products.
- Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.
- Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a crib or attach strings to toys.
- To help prevent strangulation, tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners. Infants can suffocate in gaps between the crib sides and a mattress that is too small.
- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.
- When child is able to climb out or reaches the height of 35 inches (90 cm), the crib must be replaced with a Toddler Bed or larger bed.
