Curriculum-based Measurement Mark R. Shinn, 1989-03-17 Developed specifically to overcome problems with traditional standardized instruments curriculum based measurement CBM has steadily increased in educational use These brief assessment probes of reading spelling written expression and mathematics serve to quantify student performance as well as to enhance academic achievement Their widening use as a means of evaluation and ultimately of instruction has created a corresponding need to expand the applications of this methodology to diverse populations This new volume addresses that need by focusing on the broader application of CBM providing practical new measures as well as detailing their use with specific student groups

The Power of Middle School Keen J. Babbage, 2012-09-14 The middle school years are a maze of academic duties human growth and self development discovering self identity and increasing social interaction with other people This maze can be an adventure of achievement and opportunity or it can be a struggle of difficulty and disappointment As these experiences are the impetus or foundation for many later achievements in academics careers and personal life it is imperative that educators maximize these formative years by helping middle school students successfully travel through this maze despite its ups and downs its twists and turns and its new challenges to master and the old issues to resolve For instance educators must support students who have fallen behind so as to thwart their reduced likelihood of turnaround in high school Likewise educators must challenge exceptional students in order to perpetuate their enthusiasm for learning and prepare them for college studies By discussing the comprehensive roles and duties of school administrators counselors and teachers The Power of Middle School addresses how to maximize middle school curriculum and extra curricular activities for the academic personal and professional benefits of all students
