Minimalism James Sampson Meyer, 2001 In this highly readable history of minimalist art James Meyer argues that minimalism was not a coherent movement but a field of overlapping and sometimes opposed practices He traces in comprehensive detail the emergence of six figures associated with the development Carl Andre Dan Flavin Donald Judd Sol LeWitt Robert Morris and Anne Truitt and how the notion of minimalism came to be constructed around their art in the 1960s Despite distinctive differences in method and points of view Meyer shows these artists became equated in a series of important exhibitions and texts that led to their designation as minimalists Publisher s description

Minimalism James Meyer, 2013

Abstract Painting and the Minimalist Critiques Matthew L. Levy, 2019-05-07 This book undertakes a critical reappraisal of Minimalism through an examination of three key painters Robert Mangold David Novros and Jo Baer By establishing their substantive engagements with Minimalist discourse as well as their often overlooked artistic exchanges with their sculptor peers it demonstrates that painting crucially informed the movement s development serving not only as an object of critique but also as a crucible for its most central tenets It also poses broader disciplinary implications as it historicizes and challenges Minimalism s death of painting critiques that have been so influential to theories of modernism and postmodernism in the visual arts

Donald Judd Annie Ochmanek,Alex Kitnick,2021-02-02 Artists architects art historians critics and curators explore the work of Donald Judd as both artist and critic in essays spanning all of Judd's career Donald Judd 1928 1994 is one of the most influential American artists of the postwar era Beginning in the 1960s he developed new ideas about art in both his works and writings that challenged many of modernism's core tenets by resisting the categories of painting and sculpture Judd described this work as specific objects Critics labeled it minimalism Perhaps because Judd's own critical writings provide a discursive framework for his work some of the monographic essays on his work are not widely known This volume collects critical and scholarly writings on Judd examining his work as both artist and critic **Minimalism and after** Renate Wiehager,DaimlerChrysler,2007 This volume presents works that have been purchased by the DaimlerChrysler Collection initially only interested in Southern German artists but now international and mainly minimalist Each work is introduced examined and put in context Out of Minimalism Malin Hedlin Hayden,2003 This Ph D dissertation involves a threefold investigation of sculpture Firstly the interpretations are focused on particular artworks by three British sculptors Antony Gormley Anish Kapoor and Rachel Whiteread respectively The notion applied minim **Documents** ,2001 *Art Journal* ,1960 **The Helga and Walther Lauffs Collection** ,2009 The Disappearance of Objects Joshua Shannon,2009 Materiality in New York 1960 Neo dada city Oldenburg Disappearance of objects Johns Black market Rauschenberg Loft without labor Judd Into air the late 1960s and after **Art in America** Frank Jewett Mather,Frederic Fairchild Sherman,2004 The Fall of the Studio Wouter Davidts,Kimberly Paice,2009 Valiz's Antennae series picks up new currents in the arts and commissions essays that transmit current waves of thought The Fall of the Studio Artists at Work a collection of new essays examining the role and significance of the artist's studio in the cultural production and criticism of the second half of the twentieth century is its first publication It critically assesses the changes that have occurred in the nature and function of the artist's studio from the postwar period on A blend of art history art criticism and art theory written in an accessible non academic style the book illuminates a number of artists studio habits from the 1960s through the present including Eva Hesse Mark Rothko Olafur Eliasson Bruce Nauman Robert Morris Daniel Buren Martin Kippenberger Paul McCarthy Jason Rhoades and Jan De Cock *Situation Aesthetics* Kirsi Peltomaki,2010-03-05 The first book length study of

this influential artist's work focusing on the participatory role of the human subject rather than the art object Michael Asher doesn't make typical installations. Instead, he extracts his art from the institutions in which it is shown, pulling it from collections, histories, or museums' own walls. Since the late 1960s, Asher has been creating situations that have not only taught us about the conditions and contexts of contemporary art but have worked to define it. In *Situation Aesthetics*, Kirsi Peltomäki examines Asher's practice by analyzing the social situations that the artist constructs in his work for viewers, participants, and institutional representatives, including gallery directors, curators, and other museum staff members. Drawing on art criticism, the reports of viewers and participants in Asher's projects, and the artist's own archives, Peltomäki offers a comprehensive account of Asher's work over the past four decades. Because of the intensely site-specific nature of this work, as well as the artist's refusal to reconstruct past works or mount retrospectives, many of the projects Peltomäki discusses are described here for the first time. By emphasizing the social and psychological sites of art rather than the production of autonomous art objects, Peltomäki argues Asher constructs experientially complex situations that profoundly affect those who encounter them, bringing about both personal and institutional transformation.
