All of the material presented here is true. Some of it seems unbelievable but all the reports here are covering behaviors that these people were engaging in willingly, even some of the fatal ones for the purpose of having some sort of heightened sensory experience. Nearly all of this behavior does NOT involve drugs, focusing more on altered experience through altered body state. Not for the easily squeamish. Despite the extreme subject matter, this volume is highly intelligent and an amazing psychological peek into the fringes of human experiences.      A Forecastle Frolic.
