Iraq Beyond The Wire A Soldier S Perspective On War:

Beyond the Wire Ross Bryan, 2015-01-20 Squinting from a one two punch of exhaustion and the eerie faded brass hue of a desert sun that doesn't take breaks and never seems to want to I'm trying to decide just how in the hell I ended up here Here being Iraq Cavalry Scout In the Army for that matter Perhaps if I thought long and hard enough I could remember I knew for damn sure that I had no shortage of time to work it out My journey started six thousand miles to the west in a place called Ashtabula Ohio I had spent the better part of a year at a 3rd shift job in a factory on the far end of town trying not to lose myself in the mullets and meth of the American Midwest Then came 9 11 The images of those airplanes slamming into the NYC skyline like lawn darts playing on a constant loop on CNN The attack had leant me a sense of purpose I enlisted in the Army Now here I was two years later as far from Ashtabula as I could get squinting in the dust and that godforsaken insane colored sun It all seemed to be drawing together into some kind of destiny and before I ever saw Ohio again before I got the chance to comprehend the paradise that Ashtabula really had been there was Iraq There was an eternity of gunfire and explosions and heat and blood and steel Iraq was hell and that was exactly where I was going **Professional Journal of the United States Army**, 2011-07 *The New Rules of War* Sean McFate, 2019-01-22 Stunning Sean McFate is a new Sun Tzu Admiral James Stavridis retired former Supreme Allied Commander at NATO An Economist Book of the Year 2019 Some of the principles of warfare are ancient others are new but all described in *The New Rules of War* will permanently shape war now and in the future By following them Sean McFate argues we can prevail But if we do not terrorists rogue states and others who do not fight conventionally will succeed and rule the world *The New Rules of War* is an urgent fascinating exploration of war past present and future and what we must do if we want to win today from an 82nd Airborne veteran former private military contractor and professor of war studies at the National Defense University War is timeless Some things change weapons tactics technology leadership objectives but our desire to go into battle does not We are living in the age of Durable Disorder a period of unrest created by numerous factors China's rise Russia's resurgence America's retreat global terrorism international criminal empires climate change dwindling natural resources and bloody civil wars Sean McFate has been on the front lines of deep state conflicts and has studied and taught the history and practice of war He's seen firsthand the horrors of battle and understands the depth and complexity of the current global military situation This devastating turmoil has given rise to difficult questions What is the future of war How can we survive If Americans are drawn into major armed conflict can we win McFate calls upon the legends of military study Carl von Clausewitz Sun Tzu and others as well as his own experience and carefully constructs the new rules for the future of military engagement the ways we can fight and win in an age of entropy one where corporations mercenaries and rogue states have more power and nation states have less With examples from the Roman conquest World War II Vietnam Afghanistan and others he tackles the differences between conventional and future war the danger in believing that technology will save us the genuine leverage of

psychological and shadow warfare and much more McFate's new rules distill the essence of war today describing what it is in the real world not what we believe or wish it to be Military Review ,2011-07 *Sister in the Band of Brothers* Katherine M.
