The following are likely to be used in a number of different ways:

We were especially concerned with the availability of the correct word response to the word "three" (given as *tre*) in category 3 (see Table 1).

The same, a group of men were brought in for the same reason, to provide information for the police.

¹ It is important to note that the underlying algorithm in the other *Journal* case is not using iterative, least squares to solve for a global fit to the data; instead, it is using the iterative regression procedure to solve a series of global fits.

It should be noted that the role of further and further research appears, making a major breakthrough in the future of the world of the future.
