The Times Index ,2013-07 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement Engaging with Linguistic Diversity David Little,Déirdre Kirwan,2019-06-13 Engaging with Linguistic Diversity describes an innovative and highly successful approach to inclusive plurilingual education at primary level The approach was developed by Scoil Bhr de Cail n Blanchardstown as a way of converting extreme linguistic diversity more than 50 home languages in a school of 320 pupils into educational capital The central feature of the approach is the inclusion of home languages in classroom communication After describing the national context the book traces the development of Scoil Bhr de s approach and explores in detail its impact on classroom discourse pupils plurilingual literacy development and their capacity for autonomous learning The authors illustrate their arguments with a wealth of practical evidence drawn from a variety of sources pupils and teachers voices are especially prominent The concluding chapter considers issues of sustainability and replication and the implications of the approach for teacher education The book refers to a wide range of relevant research findings and theories including translanguaging plurilingual and intercultural education language awareness and language learner autonomy It is essential reading for researchers and policy makers in the field of linguistically inclusive education *Debates in Mathematics Education* Dawn Leslie,Heather Mendick,2013-10-01 Debates in Mathematics Education explores the major issues that mathematics teachers encounter in their daily lives It engages with established and contemporary debates promotes and supports critical reflection and aims to stimulate both novice and experienced teachers to reach informed judgements and argue their point of view with deeper theoretical knowledge and understanding Written by experts in the field of mathematics education it investigates and offers fresh insight into topics of central importance including Gender social inequality and mathematics Mathematics politics and climate change The history and culture of mathematics Using popular culture in the mathematics classroom The concept of ability and its impact on learning What we mean by teaching for understanding Choosing and using examples in teaching The fitness of formal examinations Designed to stimulate discussion and support you in your own research writing and practice Debates in Mathematics Education will be a valuable resource for any student or practising teacher engaged in initial teacher training continuing professional development or Masters level study It also has much to offer to those leading initial teacher education programmes and to beginning doctoral students looking for a survey of the field of mathematics education research **House of Commons - Treasury Committee: Money Advice Service - HC 457** Great Britain: Parliament: House of Commons: Treasury Committee,2013-12-03 The Money Advice Service is not currently fit for purpose The Committee considered whether to recommend that the MAS be scrapped completely but given that the Treasury had already announced its intention to conduct a review of the MAS they granted a stay of execution They asked the Government to expedite this review and recommended that it should be

independent rather than led by the Treasury The review must assess whether the MAS should continue to exist and if so how it can overcome the serious problems discussed The current management of the MAS should also explain how they are going to act on the concerns identified The independent review should seek to answer the following questions Should the Money Advice Service or something like it exist as a statutory organisation If so what should the role and strategy of such a body be Should it be a co ordinator commissioner or direct provider of advice What channels should it use If not should the FCA take responsibility for the objectives of the Service Does the FCA need greater statutory powers to hold the Money Advice Service to account What are the views of other bodies in this sector about the way in which the Money Advice Service is now engaging with them To what extent does the work of the Money Advice Service unnecessarily duplicate existing provision What should the role of the Service be in each of the areas in which it operates Is the remuneration of the Service s senior staff set at an appropriate level

How to Succeed at School Wendy Berliner, Judith Judd, 2019-11-20 This book shines a light on the best research into learning and the brain development that makes it all possible Written by two distinguished education journalists it provides an invaluable guide to the latest information for teachers and parents seeking to help children to make the best use of their potential and steer a true course through an often confused noisy and crowded learning landscape where ideas compete and nothing can seem clear Summarising the most up to date and significant research in a jargon free and understandable way this book provides readers with simple and clear access to knowledge and information about what really helps children learn and flourish Whether you re a teacher who wants to encourage the right kind of parental support or a parent who wants to do the best for your child this is an essential read Drawing on expert analysis interviews and example studies the chapters tackle common misconceptions and myths and explore crucial topics including The use of neuroscience in education The role of parents and how all parents can help their children learn What works in the classroom and the best ways of teaching a child The first of its kind this seminal text is a unique resource for parents carers primary and secondary teachers student teachers policymakers and anyone interested in the development of children and how they learn

Numerical Development - From cognitive functions to neural underpinnings Korbinian Moeller, Elise Klein, Klaus F Willmes - von Hinckeldey, Karin Kucian, 2015-02-24 Living at the beginning of the 21st century requires being numerate because numerical abilities are not only essential for life prospects of individuals but also for economic interests of post industrial knowledge societies Thus numerical development is at the core of both individual as well as societal interests There is the notion that we are already born with a very basic ability to deal with small numerosities Yet this often called number sense seems to be very restricted approximate and driven by perceptual constraints During our numerical development in formal e g school but also informal contexts e g family street we acquire culturally developed abstract symbol systems to represent exact numerosities in particular number words and Arabic digits refining our numerical capabilities In recent years numerical development has gained increasing research interest documented in a growing number

of behavioural neuro scientific educational cross cultural and neuropsychological studies addressing this issue Additionally our understanding of how numerical competencies develop has also benefitted considerably from the advent of different neuro imaging techniques allowing for an evaluation of developmental changes in the human brain In sum we are now starting to put together a more and more coherent picture of how numerical competencies develop and how this development is associated with neural changes as well In the end this knowledge might also lead to a better understanding of the reasons for atypical numerical development which often has grievous consequences for those who suffer from developmental dyscalculia or mathematics learning disabilities Therefore this Research Topic deals with all aspects of numerical development findings from behavioural performance to underlying neural substrates from cross sectional to longitudinal evaluations from healthy to clinical populations To this end we included empirical contributions using different experimental methodologies but also theoretical contributions review articles or opinion papers *Parliamentary Debates (Hansard).*
