Life Sciences Practical Grade 11 November 2013:

Born to Choose John H Falk, 2017-09-05 Born to Choose is John H Falk's compelling account of why and how we make the endless set of choices we do every second of every day of our lives. Synthesizing research from across the biological and social sciences, Falk argues that human choice making is an evolutionarily ancient and complex process. He suggests that all our choices are influenced by very basic and early evolving needs and that ultimately each choice is designed to support survival in the guise of perceived well-being. This engaging book breaks new intellectual ground and enhances our understanding not just of human choice making but human behavior overall. Beating Captain Najork Todd R.

Tropical Dairy Farming John Moran, Philip Chamberlain, 2017-01-20 *Blueprints for Tropical Dairy Farming* provides insight into the logistics, infrastructure, and management required for the development of small and large dairy farms in tropical developing countries. Farmers will learn how to improve the welfare, milk quality, and productivity of their dairy herds. This book complements author John Moran's five previous books on the principles of tropical dairy farming. The manual covers a wide range of topics related to ensuring the sustainability of dairy production systems in tropical developing countries such as South and East Asia, Africa, and Central America. It also provides guidelines for the best management practices of large-scale, more intensive dairy systems. While smallholder farms are the major suppliers of milk in the tropics, many larger farms are becoming established throughout the tropics to satisfy the increasing demands for fresh milk. *Blueprints for Tropical Dairy Farming* will be a valuable resource for farmers and stockpeople who want to improve the productive performance of their dairy herds, farm advisers who can assist farmers to achieve this aim, educators who develop training programs for farmers or who train dairy advisers in the basics of dairy production technology, and other stakeholders in tropical dairy.

production such as local agribusiness policy makers and research scientists National and international agencies will learn new insights into the required long term logistics for regional dairy development while potential investors will acquire knowledge into intensive tropical dairy farming
