July 2013 Daycare Parent Newsletter:

After the Rise and Stall of American Feminism Lynn S. Chancer, 2019-02-26 It is more than fifty years since Betty Friedan diagnosed malaise among suburban housewives and the National Organization of Women was founded. Across the decades the feminist movement brought about significant progress on workplace discrimination, reproductive rights and sexual assault. Yet the proverbial million dollar question remains: why is there still so much to be done? With this book, Lynn S. Chancer takes stock of the American feminist movement and engages with a new burst of feminist activism. She articulates four common causes: advancing political and economic equality, allowing intimate and sexual freedom, ending violence against women, and expanding the cultural representation of women. Considering each in turn to assess what has been gained or not, it is around these shared concerns Chancer argues that we can continue to build a vibrant and expansive feminist movement. After the Rise and Stall of American Feminism takes the long view of the successes and shortcomings of feminism. Chancer articulates a broad agenda developed through advancing intersectional concerns about class, race, and sexuality. She advocates ways to reduce the divisiveness that too frequently emphasizes points of disagreement over shared aims. And she offers a vision of individual and social life that does not separate the personal from the political. Ultimately, this book is about not only redressing problems but also reasserting a future for feminism and its enduring ability to change the world.

Early Years Policy Zenna Kingdon, Jan Gourde, 2013-11-07 How does early years policy impact on practitioners, children's settings, and families? What are the implications of current policy for the future? How can early years professionals shape and craft practice in ways that genuinely focus on the needs of children and families rather than the interests of policy makers? This exciting new text explores the changing context and increasing importance of early years policy. It takes a broad look at policy developments and shows how these have affected children's settings, parents, and the early years workforce. Divided into two parts, the first examines theoretical perspectives and sets out the early years policy context, looking at issues surrounding accountability, international influences on policy, and the Early Years Foundation Stage. The second half of the book directly shows how policy has influenced practice and considers the upskilling of the workforce and the impact of this on practitioners, the development of the learning environment, including outdoor provision, sustained shared thinking, and its link to high quality learning and teaching, the impact of policy on parents. Offering a fresh perspective on early years policy, this timely textbook will be essential reading for students on undergraduate and postgraduate Early Years and Childhood Studies courses and those working towards Early Years Teacher status.

The Meritocracy Trap Daniel Markovits, 2019 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy. It is an axiom of American life that advantage should be earned through ability and effort. Even as the country divides itself at every turn, the meritocratic ideal that social and economic rewards should follow achievement rather than breeding remains supreme. Both Democrats and Republicans insistently repeat meritocratic notions. Meritocracy cuts to the heart of who we are.

It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

Wanting What's Best Sarah W. Jaffe, 2022-05-24 When privileged parents say that they want what s best for their child they don t consciously add and not for other children Yet the practical effect of parents with privilege relentlessly pursuing their own child s interests is that other children are left behind Author Sarah W Jaffe interviewed dozens of parents who are resisting the cultural pressures to seek the best for only their kids while navigating some of the major decisions that parents make about childcare schools how they use their time and money and the legacy they hope to leave their kids These may not feel like political decisions but each either contributes to a system where only a few can thrive or takes a small step toward dismantling it Our children are watching and learning from how we make choices How we treat the people who care for them tells them how they should behave as a boss Where we send them to school teaches them about their place in the world How we spend our time and money sends them more powerful messages about how to spend theirs than any lecture about the importance of giving back or gratitude ever could What does it look like to fight for other people s children as if the future of your own child depended on it What choices would you make
