Combinatorics and Reasoning Carolyn A. Maher, Arthur B. Powell, Elizabeth B. Uptegrove, 2010-06-29 Combinatorics and Reasoning Representing Justifying and Building Isomorphisms is based on the accomplishments of a cohort group of learners from first grade through high school and beyond concentrating on their work on a set of combinatorics tasks By studying these students the editors gain insight into the foundations of proof building the tools and environments necessary to make connections activities to extend and generalize combinatoric learning and even explore implications of this learning on the undergraduate level This volume underscores the power of attending to basic ideas in building arguments it shows the importance of providing opportunities for the co construction of knowledge by groups of learners and it demonstrates the value of careful construction of appropriate tasks Moreover it documents how reasoning that takes the form of proof evolves with young children and discusses the conditions for supporting student reasoning Resources in Education ,1982
