## Le Premier Temple:

, *les quatre Evangiles, et les actes des Apotres*, 1718      *Temples and Sanctuaries in the Roman East* Arthur Segal, 2013-10-31 This lavishly illustrated volume presents a comprehensive architectural study of 87 individual temples and sanctuaries built in the Roman East between the end of the 1st century BCE and the end of the 3rd century CE within a broad region encompassing the modern states of Syria Lebanon Israel and Jordan Religious architecture gave faithful expression to the complexity of the Roman East and to its multiplicity of traditions pertaining to ethnic and religious aspects as well as to the powerful influence of Imperial Rome The source of this power lay in the uniformity of the architectural language the inventory of forms the choice of styles and the spatial layout of the buildings Thus while temples have an eclectic character there is an underlying unity of form comprising the podium the stairway between the terminating walls antae and the columns along the entrance front in other words the axuality frontality and symmetry of the temple as viewed from outside The temples and sanctuaries studied in this volume demonstrate individual nuances of plan spatial design location in the sanctuary and interrelations with the immediate vicinity but can be divided into two main categories Vitruvian temples derived from Hellenistic Roman architecture and Non Vitruvian temples those with plans and spatial designs that cannot be analysed according to architectural criteria such as those defined by Vitruvius The individual descriptions presented focus solely upon the analysis of the external and internal space of the temples of all types and do not involve any cultural or ethnic discussion      **The decrees of memphis and Canopus** Ernest Alfred Thompson Wallis Budge, 1904

**Arkadia** Thomas Heine Nielsen, James Roy, 1999      **L'Apocalypse des animaux (1 Hen 85-90): une propagande militaire?** Daniel Assefa, 2007-09-30 For the majority of scholars the Animal Apocalypse is a militant text a piece of pro Maccabean propaganda This text however develops theological reflections that are distinctly different from a justification of an armed struggle Its themes are even incompatible with the Maccabean movement It is impossible to condemn the Second Temple and at the same time mobilise people for a fight in order to purify that very Temple After dealing with text critical issues this work challenges the thesis that the text is military propaganda through the use of narrative and historical approaches The analyses besides proposing a new way of a studying an apocalypse spell out the peculiarity and the significance of the theology of the Animal Apocalypse in connection with the biblical history of Israel and the theology of the Qumran community      Around the Hearth Jérémy Lamaze, Maguelone Bastide, 2021-09-07 From basic needs such as lighting heating or cooking to symbolic or ritual engagement hearths in indoor contexts serve as a focal point This is especially evident both spatially and architecturally in structures containing central hearths In assessing any gathering around a hearth the types of social groups involved need to be determined and their interactions clearly assessed in each specific case Beyond clearly domestic contexts many rooms or buildings have been deemed religious or cultic places often based solely on the presence of a hearth despite other possible interpretations This volume appraises and contextualises diversity in practice

centering on the hearth in the Aegean and more widely in areas of the Western Mediterranean closely connected to Greek civilization notably through its colonies revealing surprising similarities but also local adaptations In the West the use of the hearth often has a unique character arising from local adaptations born of indigenous practices The combined approach presented here detailing technical aspects of the hearths themselves their architectural settings and any associated artefacts or furnishings affords a rich spectrum for cross cultural analysis between these Mediterranean regions
