

Magnetism Between 1800

The first part of the text discusses the historical context of magnetism, mentioning the discovery of the magnetic field and the development of the magnetic field theory.

The second part of the text discusses the experimental setup for the experiment, including the use of a magnetic field and the measurement of the magnetic field.

The third part of the text discusses the results of the experiment, showing that the magnetic field is indeed present and that it is related to the current flowing through the wire.

The fourth part of the text discusses the implications of the experiment, showing that the magnetic field is a fundamental property of the universe and that it is related to the current flowing through the wire.

The fifth part of the text discusses the applications of the experiment, showing that the magnetic field can be used to create a magnetic field and that it is related to the current flowing through the wire.

The sixth part of the text discusses the conclusion of the experiment, showing that the magnetic field is indeed present and that it is related to the current flowing through the wire.
